

**AIR.LAND.WATER**

**AFD RED TEAM**

Assistant Chief Richard Davis  
Firefighter Coitt Kessler

# How far have we come?

# Still putting the wet stuff on the red stuff

# Technological leaps

**AM Low's Aerial Target - 1916**

**Chinese dark sword - 2009**

# **Fire Service Leadership**

**Nation's first metropolitan fire department with a  
Certificate of Authorization**

**World's first fire based robotics program**

---

# Vision

*The vision of the RED Team is to enhance firefighter safety and improve emergency response through the use of robotics.*

# Mission

*The mission of the RED Team is to mitigate real-world problems through the deployment of air, ground, and maritime remotely operated resources*

**January 2014 -**

- Executive Presentation
- Eight member team

**January 2015 -**

- Unfunded
- Staff assignment
- Certificate of Authorization 2016
  - Class C
  - Multi-jurisdictional
  - Nighttime navigation
- Operations

**January 2016-**

- Unfunded
- Operational relevance – Operational deployment

**October 2017-**

- Wildfire Division
- Expansion of team
- Dispatch protocols

**It's not just a  
tool**

**—**

**It's Program  
Development**

- Testifying for State Senate
- Great Hills Trail
- Memorial Day Flooding
- Hays County missing person
- Hidden Pines Fire
- North Texas Flooding
- Dry Creek Fire
- Halloween Floods
- Utility infrastructure inspections
- Mississippi Tornadoes
- TCSO missing persons
- Vehicle into town lake
- Prescribed burns
- Colorado River SAR
- ETC.....

# Proof of concept - Operations

- International Association of Fire Chiefs – IAFC
- International Association of Fire Fighters - IAFF
- NASA
- National Institute of Standards and Technology – NIST
- DHS / FEMA Robotics Work Group
- National Fire Protection Association – NFPA
- Texas Division of Emergency Management – TDEM
- South West Research Institute – SWRI
- Inter-agency Board – IAB
- Combating Terrorism Technical Support Office – CTTSO
- University of Texas
- Texas A&M Engineering and Extension -TEEX
- Texas A&M Experimental and Engineering Station – TEES
- National Emergency Response and Rescue Training Center – NERRTC
- Lone Star UAS Center for Excellence – LUASC
- Texas Parks and Wildlife Division
- University of North Texas
- Various Police and Fire Departments throughout North America

# Collaboration

# How Did We Get Here

How did the RED Team  
come to be?

How did we go from research  
program to program  
launch?

# Three -P's

Beware of your local environment!

1. **Public** (transparency)
  2. **Politics** (notifications and support)
  3. **Policies** (privacy, retention, access, insurance, maintenance, inventory, etc)
-

**Yesssss!**

**City Council  
Meeting tonight!**

# Policy and Procedure

---

# COA vs. Part 107

---

## Pro's

---

- Seven county jurisdictional
- Controlled Airspace
- Night Waiver
- Self certification

## Con's

---

- Notifications
- Pen and ink changes
- Self certification
- Buy your COA

# COA

---

## **Pro's**

---

- Minimum FAA standard
- Nation wide
- No notifications
- Waivers available

## **Con's**

---

- “G” airspace
- Waiver timeline

# **Part 107**

---

- **Someone to pay attention to us**
- **Part 107 as the minimum standard**
- **Online part 107 testing**
- **Expedited waivers (controlled airspace, night-time, etc)**

**SO.... What do we need?**

---

**\$ 145,000**

---

**\$ 14,200**

---

**Funding**

---

# Buy-In From Incident Commanders

# The next generation?

---

# Hardware Development

---

- Identifiable
- Affordable
- Payload options
- Night time lighting
- Waypoint navigation
- Weather hardened
- Extended endurance
- Customer service - **Local**
- Partnership -Relationship

- Real Time Video Transmission
- Notifications - NOTAMs, TRACON, ETC
- Resource and Asset Management
- Mapping
