

700 Kipling Street, Suite 1000
Lakewood, CO 80215

August 24, 2022

The Honorable Jared S. Polis
Governor
State Capitol Building
Denver, CO 80203

Dear Governor Polis:

RE: 2022 Justice Assistance Grant Formula Awards

Attached is a list of projects which have been approved for funding by the Governor-appointed Justice Assistance Grant (JAG) Board and the Division of Criminal Justice. The JAG Board assists the Division in distributing Colorado's Edward Byrne Justice Assistance Grant from the U.S. Department of Justice. These awards to state and local agencies will begin between October 1, 2022 and January 1, 2023.

Colorado's Justice Assistance Grant supports a wide variety of programs designed to improve law enforcement, prosecution, adjudication and prevention programs. A substantial number of the proposed awards are for continuing projects throughout Colorado. The recommendations were made after the Board conducted a formal process, including appeals that began in May 2022 and concluded this month.

A total of 42 applications were received totaling \$4,826,625. Out of these applications, 36 projects will be funded, totaling \$2,430,234. Of these, 1 are state level projects totaling \$100,000. The remaining 35 projects totaling \$2,330,234 are local projects.

A summary of funding recommendations by program purpose area precedes a description of each project.

Sincerely,

Joe Thome
Director, Division of Criminal Justice

cc: Stan Hilkey, Executive Director, CDPS
Enclosures: 2022 Funding Recommendations
Advisory Board list

The 2022 JAG funded subgrants by program purpose area are:

| <u>Program Purpose Area</u> | <u>Amount Recommended</u> | <u># of Programs</u> |
|--|---------------------------|----------------------|
| Law Enforcement | \$779,151 | 20 |
| Prosecution, Court, and Indigent Defense | \$303,625 | 2 |
| Prevention and Education | \$315,097 | 3 |
| Corrections and Community Corrections | \$317,033 | 3 |
| Drug Treatment and Enforcement | \$48,533 | 1 |
| Planning, Evaluation, Technology Improvement | \$507,916 | 5 |
| Crime Victim and Witness Programs | \$158,879 | 2 |
| TOTAL | \$2,430,234 | 36 |

STATE AGENCY FUNDING

PROJECT TITLE: 2022 CBI Laboratory Backlog Reduction

Application Number: DJ-22-01-23-1

Agency: Colorado Bureau of Investigation

Federal Award: \$100,000

Summary: External grant funds continue to play a vital role in maintaining, improving, and ensuring high standards of quality and timely delivery of forensic services to our law enforcement partners and citizens of Colorado. The goal of this application will specifically address backlog reduction in the disciplines of Drug Chemistry, Toxicology, Trace Chemistry, Latent Prints, and Firearms; this application does not include the DNA section of the laboratory.

The Colorado Bureau of Investigation Forensic Services (CBI-FS) serves a population of over 5,456,574 citizens throughout the state. The CBI-FS system includes four ISO 17025:2017 accredited full service laboratory facilities located throughout the state and works with all law enforcement agencies within the state boundaries.

The CBI-FS seeks funding for overtime to be used by examiners in the aforementioned disciplines. The overtime would reduce the turnaround time and the overall backlog of cases resulting in better customer service

LOCAL AGENCY FUNDING

PROJECT TITLE: **Digital Forensic Examiner – Year 3**
Application Number: DJ-22-01-4-3
Agency: Mesa County Sheriff’s Office
Federal Award: \$61,749
Summary: The Mesa County Sheriff's Office (MCSO) will add resources and focus existing ones to support investigations and the real-time-crime unit currently being put together by MCSO. Specifically, MCSO will hire a full time employee to be a part of the MCSO real-time-crime unit by using the application of computer science and investigative procedures to identify, preserve, recover, and analyze digital evidence from computer systems, digital devices, and electronic storage media. This person will work with MCSO sworn personnel from multiple teams to fill a gap and a need that currently exists as the way evidence is gathered continues to change due to changes in technology. This person will also promote increased specialization and efficiency and will be part of the real-time-crime unit which will provide rapid information to MCSO leadership and deputies in the field.

PROJECT TITLE: **Community Policing Expansion Project**
Application Number: DJ-22-01-18-4
Agency: Bayfield Marshal’s Office
Federal Award: \$31,903
Summary: The Bayfield Marshal's Office will continue the Community Policing Expansion Project. This will allow the agency to continue addressing crimes as the Town grows while continuing with intended projects such as a neighborhood watch program, citizens police academy and a summer youth police academy based on our successful Junior Police Academy. The target population will be all ages as it relates to providing police services while reducing and addressing crimes. In regards to specific programs such as the neighborhood watch program, the target population will be 18 and older as block captains and participants. The citizen police academy will be geared towards the adult population and the summer youth Junior Police Academy program will be geared to the target population of 13-17.

PROJECT TITLE: **Granada Police Department Part-Time Officers YR. 3**
Application Number: DJ-22-01-40-3
Agency: Town of Granada
Federal Award: \$30,229
Summary: The Granada Police department will use JAG funding to continue to pay three officers to work part-time to increase their hours to accommodate the workload. Offering part-time work with pay will enable them to work more hours for the Granada Police Department. This will not only assist the Chief and take some of the work/case load off of him, it will benefit the community.

More police visibility and patrolling, working cases, etc. will help to deter crime and increase recidivism. It will also allow more department interaction with the public, developing good relationships, which encourages citizens to be active in reporting suspicions and crime. The officers will complete daily activity reports for every shift they work. Calls and Cases are recorded in our EFORCE Records Management System. This information will be added to monthly and yearly reports, allowing the Department to measure the impact of this program.

PROJECT TITLE: **Project TEN – Anti Trafficking Coordinated Response & Intervention**
Application Number: DJ-22-02-30-2
Agency: District Attorney’s Office, 20th Judicial District
Federal Award: \$141,593
Summary: Project TEN (This Ends Now) will be a new anti-trafficking initiative and coordinated response program to improve prevention, identification, investigation, and prosecution of human trafficking cases and to better meet survivor needs. Survivors of human trafficking present with complex needs that challenge existing models and services and require specialized approaches. Project TEN will dedicate resources to identify gaps, explore new models, and implement best practices to effectively impact this community need. Project TEN will provide a dedicated investigator and case manager that will have increased contact and specialized knowledge to support known victims and those identified as high risk, to support and train our ten law enforcement agencies and community, and to conduct complex investigations. Project TEN will provide needed infrastructure to ensure sustainable implementation of best practices, victim-centered services, and evaluation of program outcomes.

PROJECT TITLE: **Domestic Violence Response Team – Year 2**
Application Number: DJ-22-02-34-2
Agency: Office of the District Attorney, 21st Judicial District
Federal Award: \$162,032
Summary: Mesa County’s increasing violent crime rates, rapidly growing prosecutorial caseloads, and challenging economic environment has put significant strain on the finite resources of the District Attorney’s Office, despite a recent public safety tax increase. The Office is now handling caseloads and victim numbers similar to jurisdictions with significantly higher staffing and financial resources. The Office will continue funding 2 FTE positions; the Domestic Violence District Attorney Investigator and the Domestic Violence Response Team Coordinator. This project ensures that Domestic Violence cases are thoroughly investigated and properly prosecuted. By continuing to provide the 21st Judicial District-District Attorney’s Office with these two positions within the Victim Services Unit, additional victim support and more thorough Domestic Violence investigation and prosecution will be achieved.

PROJECT TITLE: **BOCO Pinwheel-Community Collab. to Prev Child Abuse in Boulder**
Application Number: DJ-22-03-15-4
Agency: Boulder County
Federal Award: \$51,997
Summary: BOCO Pinwheel is a community-wide project striving to strengthen protective behaviors to prevent child abuse. The project will address child abuse by providing education to: 1) empower children with strategies to prevent abuse, 2) Educate adults on how to foster relationships that support a child's healthy development as well as learn how to prevent, detect, react to, and report child sexual abuse, and 3) Build a prevention framework to raise awareness and shift the focus on child sexual abuse from reactive to preventative. Training adults to protect children with Intellectual and Developmental Disabilities has been added to the curriculum.

PROJECT TITLE: **Denver Day Works Together – Year 3**
Application Number: DJ-22-03-28-3
Agency: Department of Housing Stability, City and County of Denver
Federal Award: \$150,000
Summary: Denver Day Works Together (DDWT) is an innovative crime prevention and employment program in Denver's Ballpark area, the Five Points neighborhood beside Coors Field, that has proved effective since its 2019 pilot. DDWT is a smaller, more targeted program of Denver Day Works, a city-wide employment initiative for people experiencing homelessness. DDWT follows a trauma-informed, employment-first model that includes case management to help participants reach employment and housing goals.

DDWT addresses crime and chronic homelessness with two main goals: 1) increase stability for people experiencing chronic homelessness, and 2) improve public safety and cleanliness. DDWT's thorough evaluation plan measures outputs and outcomes monthly.

PROJECT TITLE: **Prevention NOW Collaborative**
Application Number: DJ-22-03-29-2
Agency: District Attorney's Office, 17th Judicial District
Federal Award: \$113,100
Summary: The 17th District Attorney's Office will utilize JAG funds to address the goal of reducing crime and delinquency through county specific indicators for program youth. The Office will build upon its strong collaborative network to use evidenced based and dynamic interdisciplinary interventions to help youth who are in the juvenile justice system remain out of commitment and quickly transition back home, and for those youth not yet in the juvenile justice system, stay out of the system and have educational success! This project will use Mentoring, Restorative Justice and Clinical Treatment to prevent any future crime with participating young people and make the community a safer place.

PROJECT TITLE: **Denver’s Front Door to Procedural Justice**
Application Number: DJ-22-04-26-3
Agency: Denver Department of Human Services
Federal Award: \$120,813
Summary: Denver’s Front Door to Procedural Justice project is a partnership between Denver Human Services (DHS) and Denver Office of Municipal Public Defenders (OMPD) which provide support for indigent clients in the criminal justice system. OMPD serves as a “front door” to help clientele who are often disconnected from support services. Many clients are homeless or at-risk, face charges for low-level crimes, and have behavioral health issues. These hard-to-reach clients are already involved with OMPD, which represents them for law violations. Goals are to increase connection to benefits and support services for OMPD clients; promote system integration of human and criminal justice services between DHS and OMPD; and help reduce homelessness and recidivism among OMPD clients, which will be measured quarterly. The project aligns with the JAG goal to reduce recidivism and improve outcomes for those affected by crime, including families of the person charged, using best practices.

PROJECT TITLE: **Post-Adjudication Victim Outreach**
Application Number: DJ-22-07-10-3
Agency: Denver City Attorney’s Office
Federal Award: \$71,476
Summary: The Prosecution and Code Enforcement Section of the Denver City Attorney’s Office will continue the Post-Adjudication Outreach Coordinator position to support victims of municipal domestic violence, elder abuse, family violence and other crimes. The post-adjudication support fills a gap in service for victims whose cases are dismissed, plead out or sentenced who are not receiving other services but need more support to reduce their trauma and recover from the impact of the crime and/or criminal justice system. This innovative project helps improve outcomes for those who have been affected by crime, increases their satisfaction with the criminal justice system and increases post-victimization stability, all of which are measured by pre- and post-assessments. Further, it creates a safety measure for those victims still in contact or living with their offenders as they will remain connected with someone who can assist them with a new report should subsequent violence occur.

PROJECT TITLE: **22nd District Attorney’s Office Enhanced Crime Victim Support**
Application Number: DJ-22-07-16-2
Agency: 22nd Judicial District Attorney’s Office
Federal Award: \$87,403
Summary: The 22nd Judicial District Attorney’s Office will enhance its ability to serve crime victims and witnesses. This will be accomplished by expanding victim support services to increase a victims/witness advocate position from part time to full time and to add a new full time position known as a victim’s community support professional to more fully aid victims physically, psychologically and socially. This position would be designed to provide more intensive, full ranging support to crime victims and witnesses. This will be an innovative approach designed to address more complex victim’s needs

in areas such as serious physical and sexual abuse also working to address the unique cultural needs of indigenous people in the area.

PROJECT TITLE: Communications Interoperability

Application Number: DJ-22-01-32-1

Agency: Montezuma County Sheriff's Office

Federal Award: \$66,804

Summary: As part of Montezuma County Sheriff's Office's (MCSO) "Communications Interoperability" Program, JAG funds will be used to purchase ten (10) Mobile Data Terminals (MDTs) with associated accessories. The goal is to provide more effective communication within the MCSO, with other agencies and with the public. Communications in vehicles have evolved, more is done through the internet on social media, emails, etc. and computers have become a necessity for effective communication. MDTs assist officers with all aspects of their job, traffic stops, reports, trainings, emails etc. They are an integral part of their equipment necessary for them to effectively do their job. An effective communications strategy can help increase transparency when dealing within an agency, with other agencies and with the public. This project addresses the 2022 JAG goal by providing resources that will reduce and address crime and delinquency by using multidisciplinary, evidence-based practices.

PROJECT TITLE: CRIMEWATCH Technology Communication Project

Application Number: DJ-22-01-41-1

Agency: Town of Palmer Lake

Federal Award: \$2,400

Summary: CRIMEWATCH (CW) is a transformative technology tool which serves as a sustainable platform to address/reduce crime. It meets the 2022 JAG goal of being an innovative and evidence-based practice for policing best practices. CW enhances the way information is released, and the methods for which the press and public receive and share public safety news. It will assist in precluding misinformation from being disseminated to the public/media. CW is a personalized, community-engaging webface that offers secure sharing and a viable means for safely contacting law enforcement (LE). With the use of Web, Social, Email, Mobile App and TV, directly and anonymously, the platform will allow LE to not only to hear from residents, but to disseminate information with one-click. The goal will be to have transparency with all residents, leading to their ultimate personal safety, as well as the safety of the law enforcement officers (LEOs).

PROJECT TITLE: Granby Police Department Camera Program

Application Number: DJ-22-01-22-1

Agency: Granby Police Department

Federal Award: \$17,100

Summary: The Town of Granby Police Department will use grant funds to purchase automated cameras equipped with license plate readers (LPR) to assist with improving traffic safety and deterring crime. As a small police department, officer staffing is always a challenge. The purchase of cameras would be a force multiplier, allowing officers to have video evidence of traffic related

offenses, including reckless driving and the identification of stolen vehicles. Additionally, placement of the cameras would also assist in reducing property crime as the cameras would assist with identification of vehicles entering residential areas under construction, enabling law enforcement officers with the ability to solve property crimes from these areas.

PROJECT TITLE: **Gilpin RMS/JMS Upgrade**
Application Number: D-22-06-31-1
Agency: Gilpin County Sheriff's Office
Federal Award: \$119,882
Summary: Gilpin County Sheriff's Office will utilize JAG funds to update their outdated records management system with a technologically current software that will provide Gilpin County Sheriff's Office the means to automate labor-intensive processes, and function at optimum efficiency in order to better serve our county.

PROJECT TITLE: **Deputy Handgun Replacement**
Application Number: JI-22-01-5-1
Agency: Conejos County Sheriff's Office
Federal Award: \$9,000
Summary: The Conejos County Sheriff will use JAG funds to purchase standard sidearms to issue each Road Deputy. The sidearm chosen will be Glock 17 in caliber 9MM. Currently each Deputy carries a sidearm that they have supplied and is their personal property. Many of these sidearms are aged and showing wear which could lead to mechanical malfunctions if they are ever needed. The Conejos County Sheriff's Office has the largest number of personnel in the County. Deputies respond to numerous calls through out each shift. Including calls in the small towns within the County because of a lack of man power. Other times Deputies are alone in rural mountainous terrain. The Deputies need equipment that is reliable as their lives depend on it.

PROJECT TITLE: **3D FARO Scanner Technology**
Application Number: DJ-22-01-20-1
Agency: City of Pueblo
Federal Award: \$10,000
Summary: JAG funds will be used by the City of Pueblo Police Department for a five-day user training on the 3D FARO scanner. This new technology gives the agency the ability to collect specific, accurate, and detailed measurements from crime scenes and fatal crash sites that can be used to aide in successful prosecutions and or exonerations. At the same time, the need to use manual techniques and diagraming equipment will be minimized and the time spent for the collection of such data will be reduced.

PROJECT TITLE: 9th Judicial (Garfield County) Pretrial Support Expansion
Application Number: DJ-22-04-6-1
Agency: Garfield County
Federal Award: \$60,000
Summary: JAG funds will be used to support and expand the 9th Judicial Districts Pretrial Services Program (PTS) by providing risk assessment and court supervision orders seven (7) days a week to Garfield and Pitkin County, with weekend advisement required by HB21-1280. Grant funds will partially a staff member, computer and annual software fee. Risk assessments will be conducted at an average of eight assessments per day and tracked based on the number of defendants in custody with new charges and percentage of risk assessments completed. PTS court orders will average four a day and will be tracked/reported based on the requirements from HB 12-1310 citing CRS 16-4-105 (3) (e) (3), primarily Release, Court Appearance, Public Safety and Success Rate. PTS risk assessments will be conducted based on evidence based best practices and therefor will require in update to our pretrial software in order to use the newly validated CPAT-R tool, as the former CPAT assessment was found to have biases.

PROJECT TITLE: Replacement Dual Band Handheld Radios
Application Number: DJ-22-01-3-1
Agency: Crested Butte Marshal's Office
Federal Award: \$57,719
Summary: The Crested Butte Marshal's Office would like to replace outdated portable radios for eight full time officers. The goal is to provide better officer safety, situational awareness for officers as well as provide better community service. Currently the radios in use often have "dead" spots where officers cannot reach each other or dispatch. This is a huge officer safety issue. Newer radios provide more power to reach radio repeaters as well as having dual band capability. This goal will measured by tracking response time, citizen complaints and compliments as well tracking radio communication issues and comparing them to new radios. This project address the section of equipment and technology improvement of the JAG goals, priorities and requirements.

PROJECT TITLE: Equipment And Training Request
Application Number: DJ-22-01-1-1
Agency: Monte Vista Police Department
Federal Award: \$18,500
Summary: The Monte Vista Police Department continues to be the only 24 hour full service agency in Rio Grande County, often responding to calls for service outside the jurisdiction and stabilizing the call while waiting for the appropriate agency to respond. JAG funding will be used to update out-of-date in-car computers and to purchase tasers. This much needed equipment ensures officers and the citizens being served are safe. This includes being able to readily identify individuals without violating their constitutional rights, and using less lethal means to apprehend those who are not compliant.

PROJECT TITLE: Chaffee County Workstation & 9-1-1 Project
Application Number: DJ-22-06-7-1
Agency: Chaffee County Sheriff's Department
Federal Award: \$140,000
Summary: Chaffee County is 1039 square miles, in 2020 the population was approximately 20,000. 80% of Chaffee County are federal lands, managed by BLM and USFS. Chaffee County is a prime destination for outdoor recreation bringing in over 2 million visitors to the area each year. The ECC dispatches for all fire/EMS/Law Enforcement within Chaffee County.

JAG grant dollars will provide partial funding for the Chaffee County Sheriff's Office (CCSO) to replace the entire V-Viper 9-1-1 system, which is at "end of life," and to add a 4th 9-1-1 computer station to the center. The CCSO's goal is to ensure enough console positions in the center due to handle the increased call volume and to have a 9-1-1 system that is up-to-date with a service contract.

PROJECT TITLE: Intercept Whole Body Scanner
Application Number: DJ-22-06-43-1
Agency: Delta County
Federal Award: \$139,000
Summary: Delta County Jail will purchase the Tek84 Intercept Whole Body Security Scanning System which will increase the safety of the jail staff and other inmates by providing a more thorough and accurate means of detecting contraband in and on inmates and visitors. This project aims to have zero admittance of contraband into the jail at all times. This goal will be measured by having each inmate/visitor pass through the scanner before entering the facility. This project supports the JAG 2022 goal by implementing sustainable technology to improve safety in the jail facility by using innovative technology that a human search cannot match.

PROJECT TITLE: Presumptive Identification of Fentanyl
Application Number: DJ-22-01-27-1
Agency: Denver Police Department
Federal Award: \$71,500
Summary: The City and County of Denver has seen a significant increase in counterfeit M30 tablets that contain Fentanyl. Keeping with the efficiency of the Chemistry Unit's presumptive identification of fentanyl, 48-72-hour turnaround time has been challenging using the traditional GC/MS instrumentation. The Denver Crime Lab is requesting the purchase of a MX908 instrument. MX908 is a mobile device that can analyze suspected narcotics in 2-5 minutes compared to the four-hour traditional method. The Chemistry Unit will then implement the use of the instrument to include validation of the MX908 and training of laboratory personnel. The Chemistry Unit will compare new instrumentation analysis time to the traditional methods of analysis. This project aligns with the 2022 JAG goal of addressing crime through implementation of forensic science methods.

PROJECT TITLE: **SWAT, SIN, SOARR Projects**
Application Number: DJ-22-01-37-1
Agency: Pueblo County Sheriff's Office
Federal Award: \$44,545
Summary: PCSO's SWAT Team is regional, services surrounding agencies Pueblo PD, Fremont, Huerfano, Las Animas, Custer & rural agencies without SWAT Teams. Currently the team has tactical vests manufactured in Aug of 2018 & recommendations are replacement before the 5yr expiration date. Special Investigations & Narcotics (SIN) unit current vests are soft paneled rated for most handguns, standard issue to all LE in the agency. The vests still offer considerable protection, but detectives are not regular uniformed they are undercover who will highly benefit from special tactical vests. Sheriff's Office Aerial Response & Rescue (SOARR) utilizes UAV technology & wants to improve investigation/documentation by reducing time spent on scene where traffic interruption & flow are hindered this can be done with the addition of photogrammetry software Pixs 4D; speeding up scene documentation, tactical reconnaissance operations providing 3D rendering of accident scenes to a jury or court.

PROJECT TITLE: **Backcountry Access Equipment**
Application Number: DJ-22-01-33-1
Agency: Mt. Crested Butte Police Department
Federal Award: \$46,930
Summary: The Mt. Crested Butte Police Department is looking to acquire equipment to access the back country portion of our jurisdiction more efficiently and safely when law enforcement and search and rescue calls for service are received. Currently, the Department solely relies upon Crested Butte Search and Rescue (CBSAR) to transport officers in the event an incident is located in an area that cannot be reached in standard patrol vehicles. The project goal is to have equipment that will enable the Department to respond to calls independently of CBSAR. This goal will be measured by tracking quicker response times, tracking a decrease in response or lack of response complaints, and tracking the decrease in safety concerns related to back county access incidents. This project will address the 2022 JAG goal to prevent, reduce, or address crime.

PROJECT TITLE: **Patrol Vehicle Assistance Grant**
Application Number: DJ-22-01-9-1
Agency: Bayfield Marshal's Office
Federal Award: \$25,000
Summary: The Town of Bayfield is the second largest community in La Plata County with a population that has increased to 2,800 residents & is expected to grow significantly in the next few years. The Bayfield Marshal's Office also assists in providing law enforcement services to the "Greater Bayfield Community" of approximately 7,000 residents. The project goal continues to be known as a "Department of Excellence" providing professional services when responding to citizens in their time of need. This goal will be accomplished with proper training and equipment. The Town of Bayfield will utilize JAG funds to purchase a new patrol vehicle. During the regular budget process for

2023 the Town will budget for additional costs to purchase the vehicle, to include equipment and build out.

PROJECT TITLE: Otero County Courthouse Cameras

Application Number: DJ-22-06-36-1

Agency: Otero County

Federal Award: \$72,237

Summary: Otero County will use JAG funds for the replacement of all courthouse security cameras. The end goal would be measured by the procurement, installation, and implementation of an entirely new system that would have the ability to capture and store high-quality images, allow for filters to be used, keep track of all those that enter the courthouse, and identify individuals when a security threat or problem arises.

PROJECT TITLE: Electronic Citation Program

Application Number: DJ-22-01-13-1

Agency: City of Durango

Federal Award: \$67,579

Summary: The Durango Police Department is tracking an upward trend in vehicle crashes without injury (26% increase) and fatalities (200%). The goal of this project is to streamline the process and time it takes for an officer to make a traffic stop, cite a violator when appropriate, and return to service by purchasing the Electronic Citation Program. This project aligns with the City of Durango strategic plan more specifically Diversity, Equity, and Inclusion because the e-citations will allow translate citations into other languages allowing for inclusivity. Once the Electronic Citation program is implemented, the Durango Police Department will continue to utilize a data-based approach to target specific areas within the community where traffic crashes are most prominent, with a goal of a 20% reduction in all types of vehicle crashes.

PROJECT TITLE: Southern Ute Tribal Court Improvements and Enhancements Initiative

Application Number: DJ-22-05-38-1

Agency: Southern Ute Indian Tribe

Federal Award: \$48,533

Summary: The Southern Ute Indian Tribal Court will use grant funds to support urgent and underfunded needs that benefit the operations of the Court and Probation, as well as capital improvements aimed at increasing cultural elements throughout the courtroom and lobby. Resources requested will increase the Probation Department's ability to effectively manage individual cases, and also includes resources to cover unmet needs and enhancements that require external funding support due to lack of available internal Tribal resources. Providing the financial support to replace portable drug testing units and a monitoring/tracking application will ensure the Probation department has the tools needed to track, monitor, and test clients. Additional needs-based support includes, professional development funds, courtroom improvements/enhancements, the replacement of outdated furniture and small equipment, and funds to support the development of a Policies and Procedures Manual.

- PROJECT TITLE:** **Technology Upgrade**
Application Number: DJ-22-06-8-1
Agency: 10th Judicial District Attorney
Federal Award: \$35,797
Summary: The purpose of this project is to provide up-to-date technological support to the 10th Judicial District Attorneys Office. The goal of this project is to upgrade technology for presenters throughout the State, County and City, to connect and display the case/presentation/information accurately and precisely throughout the conference room. The estimated duration of the project is up to six (6) months with the last six (6) months of the year allowing for any equipment to have the installation completed and/or training to be provided to the technical staff of the District Attorneys Office.
- PROJECT TITLE:** **Police Technology Improvement and Training**
Application Number: DJ-22-01-39-1
Agency: The City of Aurora
Federal Award: \$104,717
Summary: Aurora Police Department intends to use grant funds to improve needs that improve operational efficiency and effectiveness. As part of that goal, Aurora PD would like to improve their technology by using JAG funds to purchase six (6) mobile license plate readers (LPR), three (3) mobile LPR processors, three (3) sets of required cabling, two (2) fixed LPR cameras, six (6) cameras and all related equipment for our MESH camera system. Additionally, funds will be utilized to attend leadership trainings that focus on the Field Training Unit.
- PROJECT TITLE:** **Electronic Ticketing System**
Application Number: DJ-22-01-2-1
Agency: City of Wray
Federal Award: \$25,000
Summary: The City of Wray Police Department provides services for approximately 2100 citizens residing within the City Limits. This project will equip the officers with an Eticket system in their patrol cars which will aid in less time hand writing tickets and will ultimately allow officers to respond to other calls faster.
- PROJECT TITLE:** **Investigations Equipment**
Application Number: DJ-22-01-25-1
Agency: District Attorney's Office
Federal Award: \$2,459
Summary: The District Attorney's Office, 11th Judicial District will purchase 5,000 rounds of 9mm sidearm ammunition, 2 cases of .223 ammunition for the .223 patrol rifles and 1 case of 12 gauge ammunition for the 12 gauge shotguns in investigators vehicles. This will aid in investigator compliance with Colorado POST minimum standards for training in firearms proficiency.

PROJECT TITLE: Pretrial Services
Application Number: 22-DJ-04-24-2
Agency: Delta County Criminal Justice Services, FKA, Delta County Alter.
Federal Award: \$136,220
Summary: Programming for Pretrial Services, through direction from an advisory board per C.R.S. 16-4-106, was developed starting in the Fall of 2021 and implemented via Administrative Order 2021-08, issued by Chief Judge Patrick, on June 1, 2021. Delta County Pretrial Service's (DCPTS) goals are: (1) to provide the courts with the information needed concerning each defendant to aid the Judicial Officer in the release or detention decision-making process. The three M's of PTS are to(1) maximize release, (2) maximize public safety, and, (3) maximize Supervision of those defendants released with Pretrial services, and other conditions, as a condition of a bond to ensure compliance with various conditions of release and to maximize court appearance, prevent, reduce or address crime, delinquency, recidivism, and improve outcomes for those affected by crime, using innovative, multidisciplinary, evidence-based practices. These stated goals will be measured and tracked through corrections software.

PROJECT TITLE: Canon City PD SWAT Development
Application Number: DJ-22-01-11-1
Agency: Canon City Police Department
Federal Award: \$23,441
Summary: This project will assist with funding to implement the Canon City Police Department SWAT Team. Funds will be utilized to purchase the required equipment to outfit tactical officers to effectively and safely respond to critical incidents to save lives..

Ratification and Acceptance of Recommendations for
2022 Justice Assistance Grant Awards
