COLORADO DIVISION OF  
FIRE PREVENTION AND  
CONTROL

<http://dfs.state.co.us/>

The Colorado Division of Fire Prevention and Control is currently seeking applicants for the 2020 wildland fire season. These are temporary positions and are not part of the Colorado "State Classified" employee system. Temporary Aide positions do not receive any benefits. Length of employment may be amended by DFPC to meet the needs of the State. Temporary employees receive overtime after 40 hours in a week.

Temporary Aide Firefighters operate as part of a team whose main purpose is to reduce the threat of wildland fire within Colorado through mitigation and suppression activities during the normal fire season period.

Top applicants may be granted an interview. Successful interviewees must complete a background investigation, polygraph, drug screen and medical/physical evaluation before an offer of employment can be made. The State of Colorado is an Equal Opportunity Employer.

Wildland Firefighters are subject to hazardous environments and will work long hours for multiple days straight and spend extended time away from home.

DFPC resources primarily operate within Colorado, but may be sent to other states if needed.

This position is for a Fire Module Crew Member. Although the primary assignment is on a module, employees may also be assigned to work on hand crews, engines, helicopters and other resources as needed.

DFPC Modules are normally comprised of 10 firefighters that perform fire suppression, fuels reduction, training, and may be called upon to assist with other types of all hazards emergencies. At times, the module will also configure as a 20 person hand crew.

Interested persons must apply utilizing the DFPC Temporary Aide Application. Additional materials (IQS / IQCS Records, Red Cards, etc) may be submitted along with the application.

Applications received after the deadline may not receive full consideration.
