

GRAND LAKE FIRE ENGINE MODULE SEASONAL RESIDENT EMPLOYMENT

Grand Lake Fire Protection District is hiring two seasonal resident employees, a Lead Wildland Firefighter (FFT1) and a wildland Firefighter (FFT2) for the 2020 fire season. The duty location is Grand Lake, Colorado.

ABOUT THE POSITION

The position will serve as a Lead Wildland Firefighter (FFT1) and a Wildland Firefighter (FFT2) on a wildland Type 6 /3 Engine with Grand Lake Fire Protection District. The position will be in Grand Lake, Colorado. As an employee of a high to moderate complexity unit, the positions will assist / all aspects of a type 6 /3 wildland engine module in fire suppression, prescribed fire, hazard tree work, hazardous fuels reduction, and national fire support. The engine module supports the local wildland fire management agencies (Rocky Mountain National Park, local Fire Departments, Colorado State (DFPC), and Local Counties).
