

RIGGING FOR RESCUE

SEPTEMBER 10TH-13TH 2020

An advanced 4 day rope workshop

The course is focused primarily on rope work for the industrial setting, involving high angle and moderate slope. Litter lashing, safe anchor building, material weight ratings, pike n pivot and mechanical advantage systems is just a few things that will be taught. The course will be geared towards hands on with some classroom to build upon safe practices.

**Hosted by Eaton Fire
Department**

**Limited space to 20
students**

Cost \$900

4 day workshop
