ADVANCED CAMEO FOR EMERGENCY PLANNERS AND FIRST RESPONDERS

El Paso County Office of Emergency Management

3755 Mark Dabling Blvd

Colorado Springs, CO 80907

3 Day Class: September 24-26, 2018

This class is intended for those persons who have already demonstrated the basic skills to operate CAMEO Suite (CAMEO Chemicals, CAMEOfm, MARPLOT, and ALOHA). The course is designed for those wishing to utilize the CAMEO software suite for all-hazards emergency planning and response. It is recommended (but not required) that all participants have some experience with data entry to the CAMEO and/or MARPLOT software applications. Linkages between the CAMEO programs and other software applications (Google Earth, EXCEL, WORD, and ArcView) are explored in depth. Participants learn methods to transfer large amounts of data between CAMEOfm and EXCEL, as well as transferring mapping data into MARPLOT from shapefiles and spreadsheets. Each student will receive a .pdf file of the three ALOHA Technical Documents, which are used to supplement the course materials. Instruction is accomplished by exploring various chemical release scenarios taken from actual events

Class is limited to 20 Students

Students must bring a laptop with CAMEO software installed from <https://www.epa.gov/cameo/cameo-software> (or have admin privileges on their computer to download the software in class)
