

The North Metro Fire Rescue District presents the: **2-Day INCIDENT SAFETY OFFICER ACADEMY** Instructed by Dave Dodson

The Incident Safety Officer Academy is a 2-day, intensive workshop designed to maximize the effectiveness of Safety Officers in preventing Firefighter Injuries and Deaths. Participants will:

- Learn the **“MEDIC”** mnemonic for the essential ISO functions
- Practice the five-step algorithm for predicting collapse before it occurs
- Discover the **“Triggers & Traps”** that help and hurt Safety Officer effectiveness
- Participate in many group activities – including practice scenarios using media from actual fires
- Receive valuable information to help meet the NFPA 1521 standard and assist in preparation for the FDSOA certification testing process

This class is NOT the National Fire Academy ISO Field Course – it is a more-practical, nitty-gritty approach to handling the important on-scene role of the ISO.

Location/Class Dates:

North Metro Fire Rescue Training Center – 1006 Weld County Road 11, Bldg C, Erie

Pick **one** of these two dates for the 1st session: **August 1st or 2nd** (0900-1700)

Pick **one** of these two dates for the 2nd session: **August 7th or 8th** (0900-1700)

Registration: **\$200 per student for the two-day course – snacks included**

Debbie VanWanseele – dvanwanseele@northmetrofire.org or 303-252-3502
