Increase in District Court Filings Between CY 2013 and 2018

District court filings are primarily felony crimes; very rarely are misdemeanor crimes prosecuted in district court. Note these data represent *cases*, not individuals. The following tables and charts display this increase by judicial district, gender, race/ethnicity, and crime type.

Between 2013 and 2018, district court filings increased by 44.7%. Controlling for the growth in the state's adult population, this increase is 31.2%.

Section One shows the numbers of filings year-to-year statewide, as well as the filing rate per 100,000 adult Coloradoans. These data are also broken out showing changes in crime types, race/ethnicity, and gender. Section Two provides this same information for each judicial district. Appendix A depicts the crime categories.

Section One: Statewide District Court Filings 2013-2018

|	2013	2014	2015	2016	2017	2018	Percent Change
Number of filings	36,582	37,857	41,356	47,250	50,984	52,949	44.7%
Rate/100K*	907	921	986	1,104	1,168	1,190	31.2%

* Rate per 100,000 adult Colorado residents
