

Q: What is the purpose of the Social-Emotional Mental Health (SEMH) Navigation Guide?

A: Communities can use the Guide to locate appropriate services, inform their decisions about early childhood mental health program adoption based on their unique community needs, and inform their strategic planning through an online, interactive decision making process. This Guide can help to provide a framework for community

planners to identify and select initiatives/programs/services and navigate available opportunities and options.

Q: Where do I find the SEMH Navigation Guide?

A: You can find the SEMH Navigation Guide by going to:
