The Catalogue of Youth Disaster Preparedness Education Resources was created to assist individuals with locating preparedness resources that are tailored to youth. Research has shown that youth disaster preparedness education is vital to building and maintaining resilient communities – especially when incorporating key recommended practices. Some promising youth disaster preparedness education components include:

- Lessons tailored to multiple grade levels and ages, with material pertaining to preparedness, mitigation, response, and recovery;
- Interactive activities for families;
- Guest speakers representing local emergency management and/or first responder agencies; and
- Exercises and drills that help sharpen preparedness and response skills.

For more information on recommended practices in youth disaster preparedness education, review the Citizen Preparedness Review, Issue 6, Bringing Youth Disaster Preparedness Education to the Forefront: A Literature Review and Recommendations here.

FEMA recommends the following to those implementing youth programs:

- Require background checks be conducted on instructors for safety precautions.
- Align program materials with FEMA and American Red Cross resources to ensure recommended protective actions are the most current. For more information, please refer to the FEMA Are You Ready? Guide or the American Red Cross document Emergency Fast Facts.
- When using existing materials or developing supplemental materials and exercises, design them to be accessible to everyone, including youth and adults with access and functional needs. For more information on providing access to individuals with disabilities, and for general information on accessibility guidelines please refer to the Section 504 Programs and Activities Accessibility Handbook. For guidance on creating section 508 compliant online materials refer to the Electronic and Information Technology Accessibility Standards. For further information on emergency management and compliance with the Americans with Disabilities Act, review the Citizen Corps Community Preparedness Webinar, a product of the Community Preparedness webinar series.

We are providing the following information and links to third party sites for your reference. FEMA does not endorse any non-government website, company, or application. All information provided here comes directly from the entities sponsoring each program. To locate additional preparedness programs and resources, please go to www.Ready.gov and www.redcross.org/beredcrossready.
Included in this Catalogue you will find a table with each youth preparedness related program/resource labeled by age group, and which materials are offered. Below this you will see a table of contents and in the body of the text there is a brief annotation for each program/resource.

We need your help to make this resource as comprehensive as possible. If you know of any programs or resources that should be added to this compendium please forward the information in an email to citizencorps@dhs.gov, with “Youth Preparedness Resource” in the subject line. Thank you.

Summary of Youth Disaster Preparedness Programs

9-1-1 for Kids. Pre-K–Adult (Ages 4–Adult)
http://www.911forkids.com

9-1-1 for Kids® is the official public education organization for law enforcement agencies, fire departments, emergency medical services and 9-1-1 communication centers for the U.S., Canada and the Cayman Islands; all countries where "9-1-1" is the universal emergency response phone number. The 9-1-1 for Kids® site offers information and links for training materials for public safety officials, community groups, parents, teachers and children. Instructional materials include: the "Presenter's Pak" (featuring “The Great 9-1-1 Adventure” video and "Presenter's Manual & Lesson Plan" ); "Classroom Pak" (serves 25 students: student activity sheets, stickers, bookmarks, Student Completion Certificates, classroom poster); and support teaching materials (e.g. coloring books, emergency wallet cards, pencils, erasers, rulers, zipper pulls, goodie bags, apparel, 9-1-1 heroes awards supplies).

The 9-1-1 Local Heroes® program aims to bring awareness to exemplary dispatchers and 9-1-1 youth heroes. The 9-1-1 Local Heroes® Medal of Honor, is bestowed on a young person who distinguishes himself/herself by gallantry and intrepidity calling 9-1-1 to help save a life or property, or to report a crime. This award is also presented to the 9-1-1 dispatcher/call taker who processed the call, and dispatched the appropriate emergency response help. Award nominations, event support and supplies are all available through www.911forkids.com.

Alabama: Be Ready Camp, 6th Grade (Ages 11–12)
http://www.bereadycamp.org

Be Ready Camp was created to teach Alabama’s 6th graders about disaster preparedness and response. Topics range from fire safety to light search and rescue. The camp culminates with a mock disaster, where the campers work side by side with first responders to respond to a simulated plane crash. Using the skills learned during the week, such as medical triage and light search and rescue, the 6th graders are able to triage and prioritize disaster victims and move them out of harm’s way. In addition, the campers are able to plan out their response by working together as a team by efficiently delegating tasks to the suitable person and maintaining strong communication with each other. All Alabama residents entering the 5th grade are eligible to attend and participants are chosen through a competitive application process.

Always Ready Kids (ARK)
http://www.alwaysreadykids.org/Home.html

ARK was founded in 2004 and has conducted dozens of projects in several countries and three continents since the creation of the program. ARK’s projects include presenting on disaster preparedness, distributing disaster preparedness information, and making individual safety supply kits that include basic preparedness items. More than 15,000 people have participated in projects conducted by ARK. ARK also assists with disaster relief efforts, has raised more than $20,000 for disaster relief efforts, and has collected and sent more than 3,500 books to shelters. The Web site includes resources for youth on building an ARK disaster supplies kit. The ultimate goal of ARK is to catalyze a shift in our culture’s approach to disasters from reactive to proactive.
American Red Cross: Masters of Disaster, K–8th Grade (Ages 5–14)
http://www.redcross.org/disaster/masters/

The American Red Cross Masters of Disaster® curriculum is centered on a series of ready-to-go lesson plans that help organizations educate youth about important disaster safety and preparedness information. Masters of Disaster contains lessons, activities, and demonstrations on disaster-related topics that organizations can incorporate into daily or thematic programming. The curriculum is non-sequential, allowing organizers to choose the lesson plans that best fit into their programming. The Masters of Disaster curriculum materials meet national educational standards and are specifically tailored for lower elementary (K–2), upper elementary (3–5) and middle school (6–8) classes.

The education on essential preparedness skills that students receive through the Masters of Disaster program will carry them through life. Lessons are enjoyable and interactive, ensuring that children are having fun while internalizing important life skills though building capabilities in Mathematics, Language Arts, Social Studies, and Science.

All across the country, through The American Red Cross, young people are trained to become involved in many areas of Red Cross Disaster Services, including community disaster education, disaster preparation in their local community, and disaster response through Red Cross disaster action teams and youth disaster corps. The Red Cross conducts school-related activities, including fundraising, organizing blood drives, providing international assistance, and teaching disaster preparedness and HIV/AIDS prevention and awareness.

American Red Cross Storm: The Dorm (Ages 18–21)
http://redcrossyouth.org/resources

College age students can help their friends and prevent and prepare for disasters that could strike while they are away from home. Red Cross Campus Clubs offer “Storm the Dorm, Be Red Cross Ready” preparedness training on college campuses nationwide. This three hour interactive presentation helps students to identify hazards in their area, dorm safety plans, and how to build an emergency kit.

Boy Scouts: Emergency Preparedness Merit Badge (Ages 11–17)

The Boy Scout Emergency Preparedness Merit Badge includes learning skills for preparedness, response, recovery and mitigation for emergency situations ranging from home emergencies, camping accidents, natural disasters, boating accidents, and power plant accidents. The badge requirements also include developing plans and checklists and working with others to help them become prepared.
**Canadian Red Cross: Bug Out! Get the Facts on Germs, K–8th Grade (Ages 5–14)**

http://www.croixrouge.ca/cmslib/general/bugout_act_12_13e.pdf

This program is designed to help children (grades K–8), parents, teachers and caregivers learn about the importance of illness prevention and control. It is a unique program that features in-class and at-home activities on topics including how bacteria and viruses are spread, hand hygiene, cough and sneeze etiquette, when and why to stay home when you are sick, immunization, and influenza pandemic preparedness.

**Chesterfield Emergency Management**

http://www.chesterfield.gov/content2.aspx?id=2402

Chesterfield, VA, CERT classes are offered several times throughout the year. Classes are typically 2 days (8:30 a.m. to noon) or nights (6:30 p.m. to 10:00 p.m.) a week for 4 weeks. Continuing education/refresher classes also are offered throughout the year. CERT members are given the opportunity to distribute emergency preparedness materials at local events, participate in exercises, and provide valuable information during a weather/disaster event through the Rapid Assessment Program. After completing the CERT training, participants can serve on neighborhood and workplace response teams. More than 400 residents have completed the CERT training in Chesterfield.

**Civil Air Patrol: Teen Cadet Program (Ages 12–18)**

http://www.gocivilairpatrol.com/cap_home/teens/

The U.S. Air Force Auxiliary, the Civil Air Patrol (CAP) runs a teen cadet program for youth aged 12–18. Cadets fly, learn to lead, hike, camp, get in shape, and push themselves. The program features instruction in the principles of aviation and aerospace flight, and offers cadet encampments with activities in emergency services, engineering, technology, physical fitness, teambuilding, and flight training. The CAP Teen program can help prepare youth for career in aviation, space, or the military. About 10% of the cadets at the U.S. Air Force Academy got their start in CAP. Cadets meet 2 hours per week and one Saturday per month, on average, and also have opportunities to attend leadership encampments, career academies, and international exchanges during the summer.

**Cobb County Public Health Preparedness**

Cobb County Safety Village is an eight-acre safety training environment where elementary school students learn about public health, safety, and emergency preparedness through interactive learning modules and activities. The village features reduced-scale buildings on street replicas that include sidewalks, traffic signals, and other local structures and landmarks. In 2011, Cobb Public Health designed a six-part education project with the goal of creating and implementing hands-on interactive safety and preparedness training for children that aligns with local, state, and Federal preparedness guidelines. The project, funded by a $78,000 grant from the Centers for Disease Control and Prevention, was specifically designed for presentation in the miniature public health building in the safety village. More than 20,000 local students completed this training during 2011.
Colorado’s Responding to Emergency and Disasters with Youth (C-READY) (Ages 13–18)
http://www.colofirechiefs.org/C-READY.htm

Colorado’s Responding to Emergency and Disasters with Youth (C-READY) program is coordinated by the Center for School, Youth, and Citizen Preparedness, a non-profit organization working in collaboration with many statewide and local organizations. Students will learn about their potential role in preparing for, responding to, and recovering from an emergency situation, and have the opportunity to put what they’ve learned to use in mock disaster exercises throughout the week. The program has the goal of teaching more than 100 students the skills they need to stabilize any injuries they may have suffered before moving on to assist others during and after emergency situations until professionals arrive. Students will also learn to identify the hazards most likely to occur and reduce potential hazards in and around the home and school. They will receive training in safety and injury prevention, first aid, CPR, and the use of an automatic external defibrillator. The program also teaches youth how to respond to natural and manmade disasters and develops their leadership skills to affect change through higher education after graduation. Youth will be encouraged to lead community prevention efforts, increase their interest in health and public safety careers, and volunteer in their communities through service learning projects.

C-READY is an adaptation of the Wisconsin READY Camp experience and will expand upon the Disaster Ready Training that has already been implemented by the Governor’s Office of Homeland Security and Ready Colorado for middle and high school students.

Corporation for National and Community Service: Learn and Serve America, K–Adult (Ages 5–Adult)
http://www.learnandserve.gov/about/programs/index.asp

The Corporation for National and Community Service includes Learn and Serve America, which allows children to participate in service-learning activities, and offers a unique opportunity for them to get involved by combining community service projects with classroom learning. Service-learning engages students in the educational process, using what they learn in the classroom to solve real-life problems. Learn and Serve America provides direct and indirect support to K–12 schools, community groups and higher education institutions to facilitate service-learning projects. SERVEnet allows volunteers to find opportunities in their communities.

Department of Education: Service Learning and Volunteer Opportunities, K–Adult (Ages 5–Adult)
http://www2.ed.gov/students/involve/service/list.jhtml

The Department of Education’s website offers links to a number of resources and opportunities that youth can use to get involved in their communities. For example, through AmeriCorps, young volunteers can find national service programs that provide opportunities to tutor and mentor youth, build affordable housing, teach computer skills, clean parks and streams, run after-school programs, and help communities respond to disasters.
Delaware School Disaster Preparedness Program, 6th–12th Grade (Ages 11–18)
http://www.delawarecitizencorps.org/schools

The Delaware Disaster Preparedness Program was developed by Delaware Citizen Corps, American Red Cross of the Delmarva Peninsula, Public Health Preparedness, Retired Senior Volunteer Program, and Delaware Emergency Management. The goal of the program is to present students with a common message about the importance of preparing for all hazards. The program is delivered in schools by the Delaware State Police’s School Resource Officers and Youth Aid Officers. The initiative was first implemented in 2009 at the beginning of the school year, during National Preparedness Month. Currently, the program is composed of a series of five videos, classroom discussion guide, and covers a variety of topics, including “Developing a Family Plan,” “Making a Disaster Kit,” “Shelter-in-Place,” and “Evacuation Resources.”

Discovery Education: Ready Classroom, K–8th Grade (Ages 5–14)
http://readyclassroom.discoveryeducation.com/#/map

In 2009, Discovery Education launched Ready Classroom, an online educational curriculum program. The program provides K-8 teachers with resources to integrate natural disaster preparedness information into their curriculum. The online resource, www.discoveryeducation.com/readyclassroom, offers teachers activities, lesson plans and multimedia tools that teach students how natural disasters develop and inspires them to build their own emergency preparedness plans with their families.

DoSomething.org: Disaster Response and Relief (Ages 13–15)
http://www.dosomething.org/whatsyourthing/Disaster+Response+And+Relief

DoSomething.org is strives to help young people support a range of different issues. By utilizing the web, television, mobile, and pop culture, DoSomething.org aims to inspire, empower and celebrate a generation of teenagers who recognize the need to do something, believe in their ability to get it done, and then take action. Their website provides information on recent disasters, facts on disaster response and relief, and tips on how to take action with their families and communities to become more prepared for disasters. The organization also sends text alerts to inform teens on how they can take action in response to a recent disaster.

Environmental Protection Agency, K–12th Grade (Ages 5–18)
http://www.epa.gov/kids

The Environmental Protection Agency (EPA) offers opportunities for children and youth are broken into three tiers, organized by age. The first is the Environmental Kids Club, for ages 4–10. This program teaches younger children about their environment, and focuses on specific topics including plants and animals, air, water, garbage and recycling, hazardous chemical spills, and extreme weather events. The second is the EPA Student Center, which is targeted towards children ages 10–14. This program features environmental club projects, assistance with careers, internships and scholarships, environmental youth awards, and activities. Students can learn about ecosystems, human health, waste and recycling, chemical spills, water, conservation, air, weather, and other environmental basics. The final tier is the High School Environmental Center, which features summer student
employment opportunities and offers the same avenues for involvement as the Student Center. The High School Environmental Center also offers an environmental dictionary, information on environmental laws, and access to the EPA newsroom, publications, and other information sources. The High School Environmental Center features information on issues related to air, water, waste and recycling, ecosystems, conservation, health and safety, extreme weather, and community environmental issues.

**Extension Disaster Education Network, 1st–5th Grade (Ages 6–11)**

The Extension Disaster Education Network (EDEN) links Extension educators from across the U.S. and various disciplines, enabling them to use and share resources to reduce the impact of disasters. From food safety to field safety, from physical to psychological, and from government to community development, EDEN has resources you can use.

One resource developed by EDEN member Purdue University Extension is "Disaster Dave's Misadventures," an educational computer activity. The focus of the program is to teach disaster-readiness skills in a fun and entertaining fashion. This is done through Disaster Dave, whom students help navigate through a variety of natural and other disasters. From blizzards to tornadoes, from hazardous materials spills to national security emergencies, Disaster Dave's fictional community is either destroyed or spared, depending upon the skills and knowledge of the player.

**FEMA for Kids, K–6th Grade (Ages 5–12)**
http://www.fema.gov/kids/

The FEMA for Kids website features disaster-related games, quizzes, stories, photos, and cartoons, and provides children with the opportunity to earn a Disaster Action Kid certification. The site also offers information for children, parents, and teachers on preparing for disasters and coping with the aftermath, including guidance on how to create a supply kit and disaster plan. The site offers access to an email server which regularly provides disaster news and information. Kids are also able to get information on ongoing disasters all over the country via an interactive map. Specific information is provided on preparing for and reacting to hurricanes, tornadoes, earthquakes, volcanoes, floods, tsunamis, thunderstorms, wildfires, winter storms, and terrorism.

**FEMA: Teen Community Emergency Response Team (CERT) Training, 7th–12th Grade (Ages 12–18)**
http://www.teencert.org

Teen CERT provides basic CERT training to students in their high schools. The program gives students emergency and leadership skills, creates an emergency response asset for schools, creates an avenue to deliver the preparedness message to teens’ families and parents, creates a culture of preparedness among tomorrow’s community leaders, and promotes connection to local sponsoring agencies, including the fire department, law enforcement, and emergency management. Teen CERT currently operates in over 100 school districts nationwide.
FEMA: Ready Kids (Ages 8–12)
http://www.ready.gov/kids

Ready Kids is a component of the Department of Homeland Security Ready.gov initiative and provides guidance on creating an emergency preparedness kit and plan, as well as specific information on tornadoes, earthquakes, fire emergencies, flooding, tsunamis, and hurricanes, and general information on terrorism. Kids are able to earn a certification from Readiness U, and are offered disaster-related games, quizzes, and comic strips. The site also features information for parents and teachers targeted towards emergency planning and coping with disaster and its aftermath.

http://www.riema.ri.gov/step/

Student Tools for Emergency Planning (STEP) is designed to teach 5th graders what to do in emergency situations, and how to create emergency kits and develop family communication plans. STEP requires only 1 hour of instructional time during the school year, but offers up to 15 hours of optional materials that align with national and state standards. Instructional materials for teachers include student handouts, instructional booklets, and “The Adventures of the Disaster Dudes” video. This video shows students playing a game based on disaster preparedness and is accompanied by discussion points for teachers to cover after showing the video. The website includes links for teachers (e.g., to sample letters to families and discussion topics), and students (e.g., a list of emergency kit contents and family communication plan cards). There are links to supplemental materials, as well, including emergency role play scenarios and a student reading list.

Fire Corps, K–Adult (Ages 5–Adult)
http://www.firecorps.org

The Fire Corps offers fire prevention and life-safety education and training for students to assist in emergency response efforts at their schools and in their communities. The Corps asks its volunteers to teach youth about their vital role in making communities safer, encouraging them to have pride in their country, gain an understanding of their civic duty, and accept personal responsibility for their well-being as an active member of the community.

Firefacts.org, K–6th Grade (Ages 5–12)
http://www.firefacts.org

Firefacts.org is an interactive website to teach fire safety to children in grades K though 6. The program features the Fire Safety Learning System CD for use in schools, and activities for kids to complete on their own, including coloring books, word puzzles, and online games. There are also resources for parents and caregivers to promote fire safety and awareness in the home.
Florida: Kids Get a Plan, K–5th Grade and 6th+ (Ages 5–18)
http://www.kidsgetaplan.com/

Kids Get a Plan includes an individual set of tools and information for youth in grades kindergarten to fifth and those in sixth grade and higher. Resources include activities, downloadable interactive stories, contests, resources for parents and news on recent disasters.

http://www.gscnc.org/dhs.html

Developed in conjunction with FEMA’s Citizen Corps, the Girl Scout Council of the Nation’s Capital created the “Be Prepared!” Emergency Preparedness Patch program to equip Girl Scouts with skills to protect their families, friends and communities when disaster strikes. The patch program prepares Girl Scouts of all ages to identify local risks and potential emergencies, connect with local community service agencies, understand hazards and appropriate protective actions, learn local alerts and warning systems, prepare themselves and their family, deal with emotional responses to an emergency, discover how to get trained and become involved in community emergency planning, and explore additional resources. The Leader’s Guide can be downloaded from the website.

Home Fire Sprinkler Coalition: Sprinkler Smarts, K–8th Grade (Ages 5–14)
http://www.sprinklersmarts.org

Sprinkler Smarts is a website that teaches kids how fire sprinklers and smoke alarms help keep families safe. Sprinkler Smarts has separate websites for kids in grades K–5 and 6–8. The site offers games that test kids’ knowledge and information, and includes other resources for teachers, parents, and fire departments.

http://www.coderedrover.org/

The Home Safety Council’s Code Red Rover program is an online resource designed for parents and educators of children in grades K–1. The program provides twelve online games, downloadable materials for use in the classroom or at home, as well as lesson plans and materials in Spanish. Lesson plans available include slips and falls, poisoning, and fire and burns.

Home Safety Council: Get Ready with Freddie! K–1st Grade (Ages 5–7)
http://www.homesafetycouncil.com/AboutUs/Programs/pr_wr_w005.asp

The Home Safety Council’s Get Ready with Freddie! program was first distributed to classrooms in August 2007 and to date, it has been delivered to over 75,000 classrooms around the country, reaching 13 million teachers, students, and families. The program is focused around Freddie Flashlight, the long-time sidekick of the Home Safety Council’s mascot, Rover the Home Safety Hound. Freddie takes center stage in this program, focusing on emergency preparedness. Students learn to develop a communications plan and assemble “Ready-to-Go” and “Ready-to-Stay” preparedness kits for their homes. Free downloadable resources include activity book, videos,
lesson plans for teachers, student worksheets, a letter for parents and checklists, and a local program evaluation form.

**Illinois: Ready Illinois School Challenge, Middle School, High School, and College (Ages 11–22)**
http://www.emergencymgmt.com/training/Illinois-Preparedness-Video-Game.html

The Illinois Emergency Management Agency (IEMA) has ongoing efforts to spread the disaster preparedness message to the state’s youth. An activity book teaches young children about safety through a storyline and activities including mazes and crossword puzzles. High school students can participate in the Ready Illinois High School Challenge, which encourages them to write scripts for a 30-second public service announcement that the state produces. The college challenge seeks to engage young adults by having them produce a public service announcement to be included in IEMA’s TV campaign for preparedness. Recently, the challenge was extended to middle school students interested in playing with the Day the Earth Shook video game developed by the IEMA. Available at www.Ready.Illinois.gov, the game uses an earthquake scenario to demonstrate the need for a disaster supply kit as well as identify safe locations in a building during an earthquake.

**Indiana: Operation Safeguard, 8th–11th Grade (Ages 13–17)**
http://www.operationsafeguard.net/

Operation Safeguard is a 5 day immersive learning summer leadership academy for central Indiana high school youth. The training and exercises aim to equip teens to be active and productive participants in disaster preparedness and response, with a special focus on helping to protect children impacted by disasters.

**Learning for Life: Exploring—Law Enforcement, Ages 14–21**
http://www.learningforlife.org/exploring/lawenforcement/

Law Enforcement Exploring is a worksite-based program for young men and women who have completed the eighth grade and are 14 years of age, or are 15 years of age but have not yet reached their 21st birthday. Law Enforcement Explorer posts help youth to gain insight into a variety of programs that offer hands-on career activities. For young men and women who are interested in careers in the field of law enforcement, Exploring offers experiential learning with lots of fun-filled, hands-on activities that promote the growth and development of adolescent youth.

**Medical Reserve Corps, K–Adult (Ages 5–Adult)**
http://www.medicalreservecorps.gov

Medical Reserve Corps (MRC) units are community-based and function as a way to locally organize and utilize volunteers who want to donate their time and expertise to prepare for and respond to emergencies and promote healthy living throughout the year. MRC volunteers supplement existing emergency and public health resources. MRC volunteers provide support for youth and school health education programs including promoting flu prevention hygiene, CPR and First Aid training, school blood drives.
Michigan: American Red Cross Storm—Safe On My Own (Ages 9–11)
http://semredcross.org/safe-on-my-own

This course is designed for preteens who are too old for a “babysitter”, but still need to build safety skills before staying home alone. “Safe on My Own” teaches youth how to stay safe without constant adult supervision. Included are tips on how to hide the house key, call for help during an emergency, home safety skills, and internet safety skills, how to interact with strangers, how to answer the door safely, and how to handle non-emergency phone calls. In addition the course, teaches basic first aid skills, how to respond to a fire or burglar, and what to do until help arrives.

Mid America Teen Community Emergency Preparedness
http://www.citizencorps.gov/cc/showCert.do?id=43249

The Mid America TEEN CERT program is designed to teach students ages 12 and older, as well as adults, to assist in the event of an emergency and/or natural disaster. The program also teaches students to be prepared to assist their families, communities, and emergency services, and to better prepare the community at an earlier age. Police departments, fire departments, and emergency management agencies—in partnership with Mid America instructors—provide training to teens in the areas of first aid, search and rescue, small fire suppression, disaster psychology, and special needs.

National Association for Search and Rescue: Hug-a-Tree and Survive Program, 2nd–5th Grade (Ages 7–11)

This educational program teaches children between the ages of 7 and 11 basic and vital survival principles and simple ways to survive in the woods if they become lost. The Hug-a-Tree and Survive program includes an introduction, video presentation, and suggestions and demonstrations, all led by a trained presenter. The program also includes handouts for parents and activity books for kids.

http://www.mcgruff.org

The McGruff Club is a program for children between the ages of 6 and 10 that promotes crime prevention and safety education. Children are encouraged to become engaged in their communities in service projects and to learn about safety. Specifically, children learn what they can do to stay safe and to prevent crime and violence in their communities. Children meet weekly for 30 to 45 minutes exploring the topics of safe and unsafe neighborhoods, conflict management, bullying, and dangerous situations in the neighborhood. The clubs may also address diversity, internet safety, guns and other weapons, and home safety. Children involved in the McGruff Club receive McGruff the Crime Dog items, activity sheets, safety letters from McGruff, and exclusive access to McGruff Club web pages, featuring special games and activities. The program’s website offers games, stories, and advice on safety. Information for parents and educators is also available.

The National Crime Prevention Council’s TCC is an initiative that works to encourage young people across the country to create safer schools and neighborhoods and increase social responsibility in teens through education and service-learning projects. TCC is comprised of two major efforts: Community Works, and Youth Safety Corps. Community Works is a comprehensive, law-related crime prevention program that helps teens understand how crime affects them and their families, friends, and communities, and it involves them in crime prevention projects to help make their communities safer and more vital. Youth Safety Corps (YSC) provides an opportunity for youth interested in public safety and crime prevention to become involved in partnerships with school resource officers, school personnel, and community volunteers to assist in creating safe neighborhoods. YSC members analyze significant safety and security concerns in their schools and communities and address those issues to generate change.

National Fire Academy (NFA) Training
http://www.usfa.fema.gov/fireservice/subjects/arson/aaw12/resources.shtm

Youth Firesetting Prevention and Intervention is a 6-day NFA course that provides students with the knowledge and skills necessary to identify children and adolescents involved in firesetting. The course addresses how to establish programs to meet the needs of these youths and their families. Skills essential to meet the Juvenile Firesetting Intervention Professional Standard are discussed and practiced throughout the course.

The course framework guides practitioners through the process of developing a comprehensive strategy to combat the misuse of fire and incendiary devices by juveniles. The course focuses on how identification, intake, screening, disposition, and follow up are used to mitigate youth firesetting behavior. It also empowers students with knowledge on how to develop, implement, and evaluate a youth firesetting prevention and intervention program. Students visit a local residential treatment program for youth to gain further insight into firesetting practices.

National Fire Protection Association: Sparky, K–6th Grade (Ages 5–12)
http://sparky.org

Sparky.org is a website that features games, fire safety information, playground safety tips, articles on personal safety, and a forum through which children can ask questions. The site also teaches kids how to create and utilize family escape plans and home safety checklists.

National Fire Protection Association: Risk Watch—Natural Disasters, Pre-K–8th Grade (Ages 4–14)
http://www.nfpa.org/catalog/product.asp?pid=RWNDSET

Risk Watch: Natural Disasters teaches children in Preschool through Grade 8 and their families how to recognize, plan for, and respond to a variety of disasters so they can reduce the fear, anxiety, and losses that accompany
those events. Students acquire practical life-saving skills relating to general preparedness, earthquakes, floods, hurricanes, tornadoes, wildfires, and severe winter storms. The curriculum is divided into five modules (preschool, grades 1–2, grades 3–4, grades 5–6, and grades 7–8), and each module each module includes lesson cards, a lesson plan, classroom activities, evaluation instruments and other teacher module materials. The modules for K–6 include a CD with grade-specific student workbooks.

**National Oceanic and Atmospheric Administration: Weather for Kids and Students, K–12th Grade (Ages 5–18)**  
[http://www.education.noaa.gov/sweather.html](http://www.education.noaa.gov/sweather.html)

The National Oceanic and Atmospheric Administration (NOAA) has partnered with the National Aeronautics and Space Administration (NASA) and others to develop online games and activities, coloring books, puzzles and materials for teachers and students to understand facts about the planet and our weather. The materials are designed for two age groups, grades K–5 and grades 6–12.

**National Volunteer Fire Council: National Junior Firefighter Program, K–12th Grade (Ages 5–18)**  

The National Junior Firefighter Program helps support fire departments by encouraging youth to volunteer and learn about fire, rescue, and emergency medical service departments in their communities. The program’s website offers resources for youth to get involved and provides ideas for local fire departments to recruit volunteers. Youth active in the program can track their hours of service to receive national recognition and can apply for the National Junior Firefighter Scholarship.

The New York City Office of Emergency Management, in conjunction with the Department of Education, created the Ready New York: Kids' Guides, one for elementary kids and the other for students in middle and high schools. Each guide is available in nine different languages. The program also includes teachers’ guides for both age groups as well as tear-out sections for use at home. Puzzles, games, and coloring pages are also included in the elementary version of the Ready New York for Kids program.

**New Zealand Ministry of Civil Defence: What’s the Plan, Stan? (Ages 7–12)**  

What's the Plan Stan? is New Zealand’s disaster preparedness resource for schools and was developed in 2006 by the Ministry of Civil Defence & Emergency Management with invaluable input from teachers around the country. It is sent out free to all primary and intermediate schools, and focuses on schoolchildren aged 7-12. It has been written specifically for primary and intermediate school students to involve them in an educational program that focuses on disasters to help them to prepare, and gives them the skills to act in a safe manner. The Ministry of
Civil Defence provides a handbook for teachers, including unit plans, templates and activities, a CD–ROM for teachers and students, including stories, interactive games, research material, tips for teachers and resources that can be incorporated into teaching unit plans, an interactive website, and teacher professional development workshops.

**Points of Light Institute: Youth & Family Programs, K–12th Grade (Ages 5–18)**  
http://www.handsonnetwork.org/volunteers/youthandfamily

The Points of Light Institute offers information and ideas on how families and youth can jumpstart volunteer efforts. The organization also offers Kids Care Clubs, which empower children to engage in service projects. Points of Light features a Youth Leadership Institute, which offers lessons and exercises on community needs analysis, goal setting, team building, project planning, decision making, and other leadership dynamics. The final elements of the leadership institute include a community service project, developed and implemented by the participants, and a graduation ceremony. Points of Light’s website also offers a list of resources, information, and opportunities for youth interested in community service.

**Project 351**  
http://project351.wordpress.com/

Project 351 celebrates the ethic of service, youth leadership, and the power of community to uplift and unite. The heart of Project 351 is the dedication and compassion of young leaders from across the Commonwealth. Ambassadors are selected by local educators for their exemplary ethic of service and their values of humility, compassion, commitment, kindness, and generosity of spirit. Project 351 was launched during Governor Deval Patrick’s 2011 inaugural, when more than 400 youth ambassadors united to serve, develop leadership skills, and discuss issues critical to young people and their communities. Last year’s day of service affected more than 10,000 children facing economic challenges in the areas of nutrition, early childhood health, and development and education. That success compelled the youth ambassadors to continue to seek the training, tools, and support of the new network of service-minded youth.

**Ready Houston, K–5th Grade (Ages 5–11)**  
http://www.readyhoustontx.gov/schoolready/index.html

These materials include classroom lessons and take-home activities divided into three modules (K–1 grade, grades 2–3, and grades 4–5). The lessons can be used for a one-day activity or as a complete unit over several days. The lessons offer an opportunity for a school-wide program. Each element of the curriculum serves to reinforce the core message of Make a Plan, Build a Kit, and Stay Informed.

**Save the Children: Resilient and Ready Program, K–6th Grade (Ages 5–12)**  
http://www.savethechildren.org/atf/cf/%7B9def2ebe-10ae-432c-9bd0-df91d2eba74a%7D/resilient-ready-communities-2010.pdf
Save the Children’s Resilient and Ready Communities initiative aims to help communities in at-risk regions meet new national standards and integrate best practices for supporting children’s safety and well-being through preparedness planning and programs. Building on current resources in the communities, Save the Children uses its expertise to: develop and/or supplement emergency preparedness plans that address communities’ needs as well as local, state and federal standards; deliver training to emergency managers, shelter managers and the childcare community; and implement disaster risk reduction programs directly with children to create Resilient and Ready Communities.

The Resilient & Ready Program is an hour long workshop designed to educate children (grades K–6) and build resiliency when faced with various forms of disasters, including earthquakes, hurricanes, floods and wildfires. The workshop combines cooperative games with disaster education to provide a fun, educational way for children to learn about preparedness.

**Serve DC: Commander Ready Program, K–8th Grade (Ages 5–14)**
http://serve.dc.gov/service/commander-ready

The Commander Ready program is a specialized component of the Washington, DC Neighborhood Corps and Citizen Corps programs designed to educate and engage children ages 5–13 in emergency preparedness. The program is intended for implementation in the home and at school, and was introduced in DC public schools during the 2007–2008 school year. The Commander Ready curriculum includes activities, workshops, and an animated DVD featuring the Ready Team to teach children how to prepare for emergencies and disasters, and how to prevent disaster damage. The Commander Ready program is structured to fit into the normal school curriculum with four separate modules each lasting forty-five (45) minutes, totaling 2-3 total hours of lessons over four school weeks.

**Sesame Workshop: Let’s Get Ready! Planning Together for Emergencies, Pre-K (Ages 4–5)**
http://www.sesamestreet.org/parents/topicsandactivities/toolkits/ready

Sesame Street’s Sesame Workshop created Let's Get Ready! Planning Together for Emergencies in collaboration with the Department of Homeland Security’s Ready Kids initiative and the Ad Council. The Let's Get Ready program is primarily targeted towards 3 to 5-year-olds and provides multiple media resources available in English and Spanish, including a Sesame Street DVD, a magazine for parents and caregivers, and activity books for kids. The goal is to help the entire family prepare for emergencies and offer ways young children can contribute to an emergency readiness plan.

**ShelterBox: Young ShelterBox USA Program**

ShelterBox USA is developing a disaster education and preparedness program for American youth called “Young ShelterBox USA.” ShelterBox provides individuals and families with vital supplies after an emergency or disaster. The mission of the program is to develop young people’s understanding of the causes of natural and
manmade disasters and the effects on communities worldwide; to promote awareness of the common needs of all people and the need for humanitarian action following disasters; to empower youth to be prepared for disasters that may affect their own communities; and to inspire them to become global citizens through education and action on the local level. Teachers around the world utilize ShelterBox as a tool to teach about disasters. ShelterBox is currently working on enhancing the program in U.S. schools by integrating activities that enhance science, social studies, language arts and math curriculum while also helping students understand how to prepare for a disaster.

**TeamHappy.org**  
http://happyjohnson.org/youth/preparedness/

This youth preparedness program teaches students how to make a family plan, build a safety kit, and stay informed for disasters. The program includes the book reading of The Adventures of Happy & Big Wanda, which serves as the curriculum core, underscoring time management, financial literacy, environmental sustainability, and outdoor exercise. The program incorporates interactive activities to facilitate learning, such as sections for coloring important survival items, a disaster kit checklist, a word search, and fill in the blank. Students take home individual worksheets, such as the Safety Fun Page, and recite the Safety Pledge, making a personal commitment to encourage their family and peers to become better prepared for disasters.

The Youth Preparedness Program is an applied-research disaster readiness program primarily for ages 6–12; it is effective because it inspires motivated learning through active involvement and meaningful activities in concert with Louisiana’s Grade Level Expectations. The program vision: We believe every child can gain value in learning how to be prepared.

**Team SAFE-T (School and Family Emergency Training)**  
http://www.teamsafe-t.org/

Developed in response to the 9/11 terrorist attacks, Team SAFE-T is an alliance of public and private organizations arranged by a group of concerned citizens in Los Angeles, CA, who joined together to increase education and awareness in response to various natural and manmade emergencies/disasters throughout California. The Team SAFE-T Partnership is dedicated to serving the citizens of California by providing a free, fully integrated, health, safety, and character curriculum, along with comprehensive family support materials accessible in seven languages.

Administered through California’s schools, Team SAFE-T reaches students and families through an annualized standards-based curriculum and supports materials developed to give easy-to-understand, age-appropriate instruction. Team SAFE-T teaches age-appropriate public health and safety education to students in grades K–12. The program includes lessons on school culture, antiviolence, attendance, all-hazard preparedness, character, and first-aid and is the key educational component of “Be Smart, Be Responsible, Be Prepared, Be Ready!,” the comprehensive disaster preparedness campaign for California. The statewide program is designed to serve a diverse student body, and program materials will be available in English and Spanish.
Texas: Extreme Youth Leadership Training Camp (EYL)
http://www.eylat.org/

The Extreme Youth Leadership (EYL) training camp is a week-long summer camp that takes place annually in Midland, Texas as part of the Texas School Safety Center (TxSSC) program. The camp gives youth the opportunity to create solutions to real issues that are occurring in their schools and communities. The camp provides youth with skills necessary to make a difference in their communities which results in recognition for the great value that their service brings to the people and community around them.

Texas: Teen Advocates for Community Safety (TACS) (Ages 14–19)

The Teen Advocates for Community Safety (TACS) program is a career education program supported by the Cedar Park Fire Department (CPFD) for young men and women 14 to 19 years old. The goals of the TACS Program is to focus on increasing the involvement of teens in their communities, advocate and educate for social change, encourage resource collaboration, and build awareness to their peers on fire safety and prevention, and become skilled in emergency preparedness operations. TACS trains teenagers to serve as instructors related to fire safety education for children and seniors, present other safety programs, and participate in legislative efforts to initiate reforms to improve safety in the community.

United States Power Squadrons: USPS 4 Kids, K–8th Grade (Ages 5–14)
http://usps4kids.org/default.aspx

USPS 4 Kids is a website designed to introduce children to boating and water safety behaviors, including spotting environmental hazards and practicing smart safety and rescue techniques. The site provides games and activities to teach safe boating for children of all ages.

USA on Watch, K–Adult (Ages 5–14)
http://www.usaonwatch.org

Neighborhood Watch programs frequently offer programs targeted towards youth, such as athletic activities, drug prevention programs, and tutoring. The main goal of these programs is to provide young people with activities that provide them with opportunities to increase their skills and self-esteem. Some communities have organized youth crime watch programs, which train students in crime prevention strategies. Additional program topics may include gun awareness, conflict management, peer mediation, drug and gang prevention, peer pressure, and general safety.
**Volunteers in Police Service: Youth-Related Activities, K–12th Grade (Ages 5–18)**
http://www.policevolunteers.org/volunteer/?fa=volunteer_activities

VIPS offers opportunities for youth to become involved in local police services by participating in programs such as youth citizen academies, school-based programs such as DARE, after-school programs, and internships. Local VIPS programs also offer junior police academies, youth crime watch programs, youth accountability boards, youth camps, law enforcement exploring posts, mentoring programs, and police athletic league programs.

**Wisconsin: Center for School, Youth and Citizen Preparedness (Ages 13–18)**
http://www.citizenpreparedness.org

Wisconsin’s Responding to Emergency And Disasters with Youth (READY) program is coordinated by the Center for School, Youth, and Citizen Preparedness. Students learn about their potential role in preparing for, responding to, and recovering from an emergency situation, and have the opportunity to put what they’ve learned to use in a mock disaster exercise. The program has taught hundreds of students the skills they need to stabilize any injuries they may have suffered before moving on to assist others during and after emergency situations until professionals arrive. Students also learn to identify the hazards most likely to occur and reduce potential hazards in and around the home and school. They receive training in safety and injury prevention, first aid, CPR, and the use of an automatic external defibrillator. The program also teaches youth how to respond to natural and manmade disasters and develops their leadership skills to affect change through higher education after graduation. Youth are encouraged to lead community prevention efforts, increase their interest in health and public safety careers, volunteer in their communities through service learning projects.

READY has trained nearly 1,000 Wisconsin youths in preparedness through courses taught at various locations, including schools, community centers, and summer camps. The program trains middle and high school youth, ages 13–18, escorted by advisors.
Other Publications and Resources

American Academy of Pediatrics: Family Readiness Kit, 2nd Edition
http://www2.aap.org/family/frk/aapfrkfull.pdf

This kit, offered by the American Academy of Pediatrics, is a set of materials formatted for parents/families to use at home for students of all grades. It includes topics such as Caring for your Family, Understanding Disasters, Disaster Fact Sheets, 4 Steps to Prepare for Your Family, Family Disasters Supplies List, Families: The First Resource, When Your Child Needs EMS, and National and Local Resources. It is available in both English and Spanish.

American College of Emergency Physicians: Disaster Hero
www.disasterhero.com

This web-based game will be targeted to multiple audiences, including children, early teens, parents, caregivers and teachers. It will focus on what to do before, during and after a disaster—using the most common disasters (earthquakes, floods, hurricanes, and tornadoes) as teaching tools—and will also emphasize getting an emergency kit, having an emergency plan and being informed. As players take on the role of a “Disaster Hero”, who is helping different families prepare for various disasters, they will be encouraged to learn about the types of disasters that are more likely to occur in their geographical region or state. Each disaster scenario provides a variety of game experiences—including time management and puzzle games, hidden object games, and simulation games—and quizzes on what was learned. Players earn points throughout the game that are displayed on the game website. The website also has downloadable learning activities and checklists targeted towards teachers and parents.

American Public Health Association’s Get Ready Campaign
http://www.getreadyforflu.org/newsite.htm

The American Public Health Association’s Ready Campaign, which was launched in 2006, helps Americans to prepare themselves, their families, and their communities for all hazards and disasters. Some of these disasters and hazards include pandemic flu, infectious disease, natural disasters, and other emergencies. The website provides free print materials that can be downloaded, including a Get Ready brochure, fact sheets, posters, games, and coloring sheets. In addition, this website has a special area just for children where they can download games, write on a blog, and learn about scholarship opportunities.

American Red Cross: Be Red Cross Ready Safety Series Volume 4: A Family Guide to First Aid and Emergency Preparedness
http://redcrossstore.org/Shopper/Product.aspx?UniqueltemId=216

This guide and accompanying DVD helps families learn to prepare for all types of emergencies. This resource uses demonstrations and interactive activities to cover medical emergencies, disaster plans, injury prevention and first aid and emergency preparedness kits.
American Red Cross: SeeMore’s Playhouse Video
http://redcrossstore.org/Shopper/Product.aspx?UniqueItemID=196

The Emmy® Award Winning television series, SeeMore's Playhouse, co-produced by Safety4Kids®, partnered with the American Red Cross on two episodes about fire safety and dental health and are now available on DVD for purchase. Other special features include music videos to sing along to covering topics such as household safety, car safety, crossing the street safety and sun safety. Also featured are informative safety tips about childproofing your home from Parenting Magazine.

American Red Cross: Youth Volunteers in Disaster Services

Youth have been involved in disaster service with the American Red Cross since 1884. This document discusses the importance and benefit of involving youth in disaster preparedness programs. Additionally, this report provides the information and tools needed for three sectors—disaster services, youth services and volunteer administration—to help foster youth participation to their local chapter’s disaster services programs.

American Red Cross and FEMA: Helping Children Cope with Disaster

This booklet was created to assist parents and caregivers in helping children cope with disasters and emergencies. The guide also provides information on preparing family emergency plans and discussing these plans with children.

American Red Cross and FEMA: Disaster Preparedness Coloring Book
http://www.fema.gov/library/viewRecord.do?id=1640

This coloring and activity book produced by FEMA helps children and their parents work together to learn about natural disasters, family communications plans, and emergency kits.

American Red Cross and FEMA: Ready…Set…Prepare Activity Book

This guide contains two activity books that can be used at school, home, or anywhere developed to encourage children and their families to work together to prepare for disasters through activities and games. The first book is geared towards children ages 4–7 and an adult supervisor, while the second book is geared towards children 8–11. The books have age-appropriate characters that tell children about emergency-related vocabulary they need to know; how to prepare for a disaster, how to make a disaster supply kit, and how to prevent fires. There is also information on floods, thunderstorms, tornadoes, hurricanes, winter storms, and earthquakes. More information can also be obtained from your local Red Cross chapter.
CDC, Social Media: Preparedness 101: Zombie Apocalypse
http://www.emergency.cdc.gov/socialmedia/zombies_blog.asp?s_cid=emergency_004

This article, originally posted on CDC’s Public Health Matters blog, encourages people to prepare for a “zombie apocalypse.” In reality, the preparedness tips for this unlikely scenario could be applied to more common scenarios, such as natural disasters. Preparedness tips from this website include a list of key items an emergency kit should include, as well as steps that individuals can take to create a successful family emergency plan. Additionally, this resource includes links to other CDC emergency preparedness pages.

This reference manual can be used to support new and updated school security plans. There are sections on planning for various emergencies including a shooter on campus, suicide, and sexual harassment. The author, who is also the current editor of International Homeland Security Journal, included checklists and updated best practices in this booklet.

Effective Education for Disaster Risk Reduction – Teacher Network
http://www.edu4drr.org/

Effective Education for Disaster Risk Reduction is an online social network by and for teachers and educators who want to make a difference in disaster prevention education. The network includes a discussion forum, links to blogs, videos, and a composite of preparedness education resources.

Emergency Management Bureau: Orange County Operational Area Preparedness

This webpage provides preparedness information specific to Orange County, California. The page offers links to preparedness information for families and businesses, and pets and livestock. In addition, the site includes links to the FEMA’s disaster kit, a page on helping people with special needs prepare for emergencies, the “Are you Ready” guide, and the FEMA Kids webpage.

FEMA IS-909 – Community Preparedness: Implementing Simple Activities for Everyone
http://training.fema.gov/EMIWeb/IS/is909.asp

This FEMA interactive web-based training course provides a model program for community preparedness. In relation to youth preparedness, the training includes a best practices video on an outreach campaign called “Red Stick Ready.” The training also contains program materials including a community preparedness program leader guide, handouts, and a facilitator guide.
FEMA Lessons Learned Information Sharing, “Children and Disasters: Developing Disaster Preparedness Resources in Multiple Languages”

In 2006, The New Zealand Ministry of Civil Defence and Emergency Management established What’s the Plan Stan?, a combination of resources developed to assist teachers in preparing youth ages 7 to 12 for emergencies. This Lessons Learned publication highlights the translation of the program’s resources from English into Māori, the native New Zealand language.

http://www.state.il.us/iema/EarthquakeGame/Welcome.html

This simulated game was commissioned by the Illinois Terrorism Task Force and the Illinois Emergency Management Agency as a new educational approach to teach children effective disaster preparedness and response strategies. “The Day the Earth Shook” focuses on earthquake preparedness, as such an event could occur along the New Madrid or Wabash Valley Seismic Zones in southern Illinois.

International Association of Food Protection, “Before Disaster Strikes, a Guide to Food Safety in the Home”

The International Association of Food Protection developed this pamphlet to provide guidance for assembling an emergency food and water supply kit for the home. The guide explains the importance of planning ahead for disasters in terms of food safety, and lists items that are important to store in the case of an emergency. In addition, this guide addresses food safety issues including how long specific food items stay fresh, how to sanitize water, and how to avoid food-related illnesses.

International Tsunami Information Centre, K–12 Tsunami Curriculum
http://www.naccrra.org/for_parents/coping/disaster

The International Tsunami Information Centre developed two publications that serve as tsunami educational curricula. The first publication contains materials specific to youth in grades K–6, and the second is specific to youth in grades 7–12. Each curriculum includes guidance for teachers and activities for students.

Los Angeles Fire Department Emergency Preparedness
http://lafd.org/eqbook.pdf?bcsi_scan_F973EC8C385C81C3=UtWcFC55QaFsmY/JRpLXjuKFxKYhAAAA3C8cjQ=&bcsi_scan_filename=eqbook.pdf

This booklet, produced in 2008, teaches Los Angeles residents how to be prepared for emergencies in their geographical area. The booklet includes sections for family and home disaster planning, earthquake tips, and general preparedness checklists.
**National Association of Child Care Resource and Referral Agencies: Preparing for Disaster – the Parent View**

To help ensure that children are safe, NACCRRA provides an array of publications and resources to assist parents, educators, and providers in helping children—preschool through school-age—deal with loss and trauma. Child Care Resource and Referral agencies (CCR&Rs) play a vital role in helping their communities rebuild and meet the child care needs of children and families in the aftermath of a disaster. NACCRRA wants parents to know that their local CCR&R is a number one resource for information and personal assistance in preparing their child care program for a disaster and assisting families when a catastrophe strikes.

**NSF (National Sanitation Foundation) International: Scrub Club**

[http://www.scrubclub.org](http://www.scrubclub.org)

This fun, interactive and educational Website, which is part of Red Cross educational outreach, raises awareness about the benefits of proper handwashing to fight germs and prevent illness. The site is geared towards children ages 3–8 and includes games, music, and activities for children as well as educational materials for teachers and parents. Scrub Club’s “Soaper-Heroes” are also part of the Cleanest Classroom Contest, where students track the daily number of times each student washes their hands over the course of four school weeks.

**Pediatric Preparedness Resource Catalog**

The Pediatric Preparedness Resource Catalog was published by the Illinois Emergency Medical Services for Children, which is a collaborative program between the Illinois Department of Public Health and Loyola University Medical Center. The online catalog contains links to pediatrics preparedness resources that have been developed in order to establish clear and well known guidelines on the topic pediatric preparedness. This catalog includes publications, websites, and fillable forms.

**Puerto Rico: CERT for Kids Online Training**

[http://www.solutionspr.net/preparacion/](http://www.solutionspr.net/preparacion/)

CERT for Kids is an online interactive course in Spanish designed to teach audiences how to prepare for relevant disasters in their communities. Users participate in fun and engaging “missions” to learn how to prepare for disasters. A history and overview of the CERT program provides background on the creation of CERT and its role today in preparing youth for disaster.

**REMS Technical Assistance Center**

The REMS Technical Assistance Center's primary goal is to support schools, school districts, and institutions of higher education in emergency management, including the development and implementation of comprehensive
emergency and crisis response plans. Established by the OSDFS in October 2004, the REMS Technical Assistance Center supports REMS and EMHE grantees in managing and implementing their grants and in sustaining their efforts over time. Non-grantee local educational agencies (LEAs), schools, and institutions of higher education (IHEs) also may receive support to improve and strengthen their emergency management plans.

The TA Center disseminates information about emergency management to help schools, school districts, and institutions of higher education learn more about developing, implementing, and evaluating crisis plans. In addition, the TA Center helps the OSDFS coordinate technical assistance meetings, manage listservs for sharing emergency management planning information, and respond to direct requests for technical assistance.

This guide was created to help local and State emergency managers/coordinators in their efforts to develop and maintain a Children in Emergencies document that is supplemental to the community’s standard emergency operations plan and addresses the special needs of children. The guide provides an overview of developing documents on the role of children in emergencies, the planning process, information on the psychological effects of disasters on children, and legal considerations for working with children in disasters.

**STEPS (Safety Training for Emergency Preparedness at Schools): Los Angeles Unified School District**  
http://notebook.lausd.net/portal/page?_pageid=33,1207713&_dad=ptl&_schema=PTL_EP

This website offers a series of short online courses that are designed to prepare Los Angeles Unified School District (LAUSD) employees for emergency situations at school or work. These courses are offered for multiple audiences including teachers, administrators, school police officers, and general employees. A “Master Certificate of Disaster Preparedness” is issued to employees who complete the entire series of courses. In addition, the LAUSD website provides multiple tools that can help teachers implement youth preparedness including posters and videos.

**United Nations International Strategy for Disaster Reduction: Stop Disasters!**  

This on-line game aims at teaching children how to build safer villages and cities against disasters. Children will learn playing how the location and the construction materials of houses can make a difference when disasters strike and how early warning systems, evacuation plans and education can save lives. Children are the future architects, mayors, doctors, and parents of the world of tomorrow, if they know what to do to reduce the impact of disasters, they will create a safer world.
http://www2.ed.gov/admins/lead/safety/emergencyplan/index.html

This Department of Education webpage offers resources that can help school leaders plan for emergencies of all kinds. The page provides links to reports, websites, and guides that all have to do with some aspect of school emergencies. Some of the topics include natural disasters, school violence, terrorist attacks, and illnesses in schools.

USFA for Kids: U.S. Fire Administration for Kids
http://www.usfa.fema.gov/kids/

The USFA for Kids website provides various resources for educators, parents, and children in relation to home fire safety. The “for kids” website includes web-based games, printable coloring pages, games, quizzes, and a junior fire marshal quiz. In addition to various games and materials, information on children’s fire-related product recalls is included on this website. The recalls include a wide range of items from appliances, electronic devices, furniture, household products, and indoor environment products to children’s clothes and toys.
