**Register for this training session online at:**  
<http://rems.ed.gov/trainings/3CO120816>

**Registrations for this event must be completed by Thursday, August 9th, 2012.**

The **Readiness and Emergency Management for Schools (REMS) Technical Assistance (TA) Center**, in partnership with the **U.S. Department of Education Office of Safe and Healthy Students**, is now offering on-site training to assist schools in developing policies to comprehensively address the difficult topic of adult sexual misconduct in schools. This course is designed to develop and train key administrators and master trainers in developing policies and procedures related to adult sexual misconduct in schools.

## TRAINING DESCRIPTION

As part of an all-hazards emergency management plan, school districts must prevent, prepare, respond to, and recover from critical incidents. This includes incidents of adult sexual misconduct. It is critical that all school personnel demonstrate appropriate behavior in order to *prevent* incidents or allegations of sexual misconduct. The school community needs to be *prepared* to recognize questionable behavior and *respond* appropriately if sexual misconduct is suspected. Finally, by working together, schools need to understand how to *recover* following an incident or allegation of sexual misconduct.

Created and developed by Seattle Public Schools, the Adult Sexual Misconduct in Schools: Prevention and Management Program is an in-person training curriculum providing a structure for school districts, private schools, and charter schools to comprehensively manage adult sexual misconduct. The training has two broad objectives: 1.) to train leadership teams in developing policies, building teams, and selecting trainers; and 2.) to train master trainers who can provide training to school-based trainers, school staff, and secondary students.

## WHO SHOULD ATTEND?

Ideally, teams of three to five people from participating districts, charter schools, and private schools who are human resources (HR) directors, executive management, school board members, and master trainers responsible for trainer site-based staff and secondary students.

This training is being offered with support from the Colorado Association of School Boards (CASB), the Colorado School Districts Self Insurance Pool (CSDSIP) and the Colorado School Safety Resource Center (CSSRC).
