

FY2010 RECOMMENDATION/FY10-D58 POLICY STATEMENT AND DRUG LAW PHILOSOPHY

Status: Partial Implementation

Actions/Updates

2012 ACTION/IMPLEMENTATION

Status unknown.

No further action on this recommendation.

Description

Develop empirically-based core competencies and standards of practice in offender management along with standardized training and regulation for providers working with offenders.

Agencies Responsible

Discussion

The Division of Behavioral Health, the State Judicial Branch, and the Division of Criminal Justice should develop empirically-based core competencies and standards of practice in offender management to be used to qualify and evaluate service providers. Standardized training should be developed that addresses these core competencies and practice standards and be required for all providers working with offenders. This training should be regulated.
