**2013 UPDATE**

In FY13, the Division of Criminal Justice was allocated a total of 30 beds from the State General Fund. The beds were allocated to providers in order to serve an average daily population of 14 Transition offenders, 6 Diversion offenders, and 10 Condition of Parole offenders. The contracts with providers define the program criteria and specialized scope of work to qualify for the enhanced per diem which would include having a minimum of five beds in each funded program. It is understood that figure setting for FY14 budget will include an increase in the number of overall sex offender beds in the community corrections budget. It is anticipated that figure setting will include an additional 16 sex offenders beds for Condition of Parole for a total of 26 Parole sex offender beds.
