TO: The Judiciary Committees of the Colorado House of Representatives and the Senate
FROM: The Commission on Criminal and Juvenile Justice/Stan Hilkey, Chair
RE: House Bill 2019-1149, CCJJ's Age of Delinquency Task Force, Final Report

Background. House Bill 2019-1149, *Concerning Directing the Age of Delinquency Task Force of the Colorado Commission on Criminal and Juvenile Justice to Study Serving Emerging Adults in the Juvenile Justice System*, mandated that the Commission compile specific data on those ages 18-24 and to make recommendations for improving services to this age group. This information was to be presented to the Judiciary Committees of the House and Senate on June 30, 2020. Due to pandemic, on April 10, 2020, the Commission voted to suspend its work until June. A consequence of this suspension was a delay in providing the mandated information to the Judiciary Committees by June 30, 2020, as required in House Bill 2019-1149. We apologize for the delay; please find attached the Commission's final product per the requirements of the bill.

Specifically, House Bill 2019-1149 required the Commission's Age of Delinquency Task Force to study the established brain research, the potential impacts on the Division of Youth Services and the Youthful Offender System in the Department of Corrections if these served this young adult population, and to compile data regarding all criminal filings from the last three years in which a defendant was 18 to 24 years old. These data include age, race/ethnicity, judicial district, crimes charged, disposition and sentence; additional information was requested in the bill, such as prior services received and the overall outcome of the person, however, these data were unavailable.

The Task Force undertook the study of this age group, reviewing a significant amount of data, published reports and peer-reviewed papers, along with hearing from expert speakers, adding task force members from the Division of Youth Services and the DOC's Youthful Offender System (YOS), and touring YOS. For complete information on the work of the Age of Delinquency Task Force, please see, colorado.gov/ccjj/ccjj-cADTF.

Task Force Findings. The Commission approved two recommendations on July 10, 2020 that focus on processes within adult probation and the Youthful Offender System; these are considered to be the most appropriate agencies at this time to address the needs of young

adults, with specific modifications as outlined in the recommendations. Regarding probation, the vast majority of 18-24-year-olds who are under the jurisdiction of the criminal justice system are serving adult probation sentences so the recommendation will have a significant impact. Likewise, the Youth Offender System is specifically designed to offer appropriate programming, services, and management to individuals in this age group who are incarcerated.

Therefore, the first recommendation (attached) is directed to the Division of Probation Services in the Judicial Department. The recommendation asks the Judicial Department to promulgate probation supervision standards that formally recognize and address the needs of young adults. The second recommendation (attached) concerns important modifications to the Youthful Offender System statutes to allow greater flexibility in programming given the significant research that has accumulated on evidence-based approaches since YOS was placed in statute in 1994, and to update and clarify specific statutory language.

In addition, following the two recommendations, please find attached the compilation of data elements requested in House Bill 2019-1149. This information begins with the statewide analysis, followed by the information disaggregated by judicial district. Appendix A at the end of this data compilation provides the crime classification categories.

AGE OF DELINQUENCY TASK FORCE
FINAL RECOMMENDATION PRESENTED TO THE
COLORADO COMMISSION ON CRIMINAL AND JUVENILE JUSTICE
July 10, 2020

FY 20-AD #01. Incorporate Standards to Formally Recognize and Address the Needs of Young Adults in Probation Supervision [Policy]

Recommendation FY20-AD #01

Adult probation supervision standards promulgated by the Judicial Department should be modified and expanded by July 1, 2021 to create specific standards associated with probation supervision of young adults (18-24 year olds). These supervision standards should reflect current research and knowledge about age and brain development, especially regarding matters such as impulsivity, risk taking, and appreciating consequences of actions taken. Further, these standards should be guided by evidence-based or emerging best practices regarding the supervision of young adults, including case management approaches, involvement of the family in supervision efforts, responses to violations, the use of appropriate assessment tools, the use of restorative justice principles and practices, and partnerships with providers and the community to meet the needs of this population.

The implementation of this policy update should include the following:

- Training regarding brain development,
- Targeted interventions based on brain science,
- The need for development of partnerships with service providers and other community stakeholders to meet the needs of this population,
- Restorative justice,
- Assessment and case planning; case planning that incorporates educational/vocational training and life skills.
- Technical assistance should be provided to probation departments to facilitate the implementation of best practices.

Discussion

Chief Justice Directive 16-01 requires the State Court Administrator to submit annually to the Supreme Court for approval the Standards for Probation in Colorado. The Division of Probation Services and the Chief Probation Officers Counsel review and update the standards annually. It is recommended that standards regarding young adults be addressed in the revisions that are developed by July 2021.

Recent neuroscience research helps explain why young adults require specialized, age-appropriate interventions. The brain — and, in particular, the prefrontal cortex — continues to develop well into an individual's twenties.^{1, 2} The prefrontal cortex is the area most responsible for reasoning, self-control, and executive functioning. As a result, young adults struggle with issues around decision-making, impulse control, and organized planning compared to older adults. Simultaneously, they are more

COLORADO COMMISSION ON CRIMINAL AND JUVENILE JUSTICE
July 10, 2020

susceptible to peer pressure than any other age group. In combination, these factors can lead to increased intersection with the criminal justice system.³

This recommendation will impact thousands of young adults because probation supervision is the most common sentence for this age group. In fact, in 2019, 63% of defendants who were 18-24 years old at the case filing date and were sentenced in district, county and juvenile delinquency courts received probation supervision (n=10,651).⁴

FY20-AD #02. Revise Youthful Offender System Statutes [Statutory]

Recommendation FY20-AD #02

Expand the operational flexibility of the Youthful Offender System (YOS) program in the Department of Corrections; clarify the time credits that are awarded in YOS cases when a revocation occurs; address issues regarding payment of certain fees in YOS cases; and modify training requirements for DOC staff who work with inmates that are placed in YOS facilities.

Specifically, modify the following provisions in statute:

- 1) Delete in 18-1.3-407 (2)(a)(IV)(a.5) the prescriptive programming language;
- 2) Amend “may” to “shall” in 18-1.3-407 (2)(a)(IV)(b) regarding time credit;
- 3) Amend 18-1.3-407 (3.3)(c)(I) regarding placement in YOS Phase II;
- 4) Add “OR DESIGNEE” in 18-1.3-407 (3.5) regarding staff transfers to reflect current practice;
- 5) Amend 18-1.3-407 (3.5) to allow flexibility regarding staff training requirements;
- 6) Delete 18-1.3-407 (11) regarding district attorney data collection; and
- 7) Amend 18-1.3-407 (11.5)(a) and (c) to clarify court cost payments.

[See corresponding **Proposed Statutory Revisions** below.]

Discussion

The Department of Correction’s Youthful Offender System (YOS) was designed during a special session of the General Assembly in 1994. YOS became a sentencing option for juveniles who were prosecuted, convicted, and sentenced as adults on or after June 3, 1994 for offenses committed on or after September 13, 1993. In 1998, YOS moved from Denver to Pueblo, and in 2006 it moved to its current location on the grounds of the Colorado Mental Health Institute. YOS operates in a separate facility in Pueblo and houses approximately 180 -200 inmates who have agreed to participate in intense programming while their (typically lengthy) DOC sentence is suspended.

The statute describing YOS specifies that the state must provide a sentencing option for “certain youthful offenders” who would serve up to seven years day-for-day (meaning no good/earned time would apply) while a lengthier sentence to DOC would be suspended for the duration of the YOS sentence. According to statute, YOS offenders are to serve time in a “controlled and regimented environment that affirms dignity of self and others, promotes the value of work and self-discipline, and develops useful skills and abilities through enriched programming.”¹ The statute directs DOC to develop a program that provides “separate housing for female and male offenders who are sentenced to [YOS] without compromising the equitable treatment of either.”² The statute mandates that program participants “be housed separate from and not brought into daily physical contact with inmates older than twenty-four years sentenced to the department of corrections who have not been sentenced to the youthful offender system,...” and that these offenders “be subject to all laws and department of corrections rules, regulations, and standards pertaining to adult inmates....”³

² C.R.S. 18-1.3-407(1)(b).

³ C.R.S. 18-1.3-407(1) (c) and (d). For additional information on the Youthful Offender System see, cdpsdocs.state.co.us/ors/Docs/Reports/2018_YOSRpt.pdf

AGE OF DELINQUENCY TASK FORCE
FINAL RECOMMENDATION PRESENTED TO THE
COLORADO COMMISSION ON CRIMINAL AND JUVENILE JUSTICE
July 10, 2020

The statutorily-defined eligibility criteria have changed many times, but the original statutes that define the program have remained mostly consistent over the years. Given the significant increase in knowledge regarding this young offender population, many aspects of the prescriptive nature of the YOS enabling statutes require updating and modification. Further, some mandates are confusing and have been interpreted differently by judges and district attorneys. Finally, there is considerable confusion regarding time credits for pretrial confinement and in cases of revocation. For these reasons, this recommendation seeks to clarify and amend certain components of the YOS statute.

Proposed Statutory Revisions

(Corresponds with numbered list above.)

- 1) Delete prescriptive language in 18-1.3-407 (2)(a)(IV)(a.5).

~~18-1.3-407 (2)(a)(IV)(a.5) During any period of incarceration under the youthful offender system, privileges including, but not limited to, televisions, radios, and entertainment systems, shall not be available for an offender unless such privileges have been earned under a merit system.~~

- 2) Revise “may” to “shall” in 18-1.3-407 (2)(a)(IV)(b) to clarify legislative intent and give time credit of one day for each day served in YOS to an offender who is revoked without affecting other forms of time credit to which individuals are entitled. Staff at YOS report varying interpretations of this language by courts.

18-1.3-407 (2)(a)(IV)(b). Article 22.5 of title 17, C.R.S., concerning time credits, shall not apply to any person sentenced to the youthful offender system; except that an offender whose sentence to the youthful offender system the youthful offender system is revoked pursuant to subsection (5) of this section **SHALL** may receive one day of credit against the suspended sentence imposed by the court following revocation of the sentence to the youthful offender system for each day the offender served in the youthful offender system, excluding any period of time during which the offender was under community supervision **BUT INCLUDING CREDIT FOR PRE-SENTENCE CONFINEMENT AUTHORIZED PURSUANT TO 18-1.3-405, C.R.S.**

- 3) Revise Phase II language in 18-1.3-407 (3.3)(c)(I) to allow YOS to put an offender in Phase II from 3 to 6 months prior to the end of the institutional confinement portion of the YOS sentence, rather than a strict 90 days. (Change “last three months” to “last three to six months.”)

18-1.3-407 (3.3)(c)(I). Phase II, which may be administered during the last three **TO SIX** months of the period of institutional confinement....

- 4) Add “OR DESIGNEE” in 18-1.3-407 (3.5) to allow an executive director designee also to have final approval on the hiring and transferring of staff for the youthful offender system. This would reflect current practice. *[NOTE: See additional revisions to this same statute in #5 below.]*

AGE OF DELINQUENCY TASK FORCE
FINAL RECOMMENDATION PRESENTED TO THE
COLORADO COMMISSION ON CRIMINAL AND JUVENILE JUSTICE
July 10, 2020

18-1.3-407 (3.5). The executive director of the department of corrections **OR DESIGNEE** shall have final approval on the hiring and transferring of staff for the youthful offender system. In staffing the youthful offender system, the executive director **OR DESIGNEE** shall select persons who are trained in the treatment of youthful offenders or will be trained in the treatment of youthful offenders prior to working with such population, are trained to act as role models and mentors pursuant to paragraph (c) of subsection (3) of this section, and are best equipped to enable the youthful offender system to meet the principles specified in subsection (3) of this section. The executive director **OR DESIGNEE** shall make a recommendation to the department of personnel regarding the classification of positions with the youthful offender system, taking into account the level of education and training required for such positions.

- 5) Amend 18-1.3-407 (3.5) to allow flexibility regarding staff training requirements.

[NOTE: All revisions recommended by #4 above are displayed here in ALL CAPS without bold. Note also that the terms "juveniles" and "young adult offenders" refer to specific and separate groups of inmates who are subject to different procedures and processes in YOS.]

18-1.3-407 (3.5). The executive director of the department of corrections OR DESIGNEE shall have final approval on the hiring and transferring of staff for the youthful offender system. In staffing the youthful offender system, the executive director OR DESIGNEE shall select persons who are trained in the treatment of youthful offenders or will be trained in the treatment of youthful offenders ~~prior to working with such population~~, are trained to act as role models and mentors pursuant to paragraph (c) of subsection (3) of this section, and are best equipped to enable the youthful offender system to meet the principles specified in subsection (3) of this section. **ALL STAFF MEMBERS SHALL BE TRAINED IN THE TREATMENT OF YOUTHFUL OFFENDERS WITHIN 45 DAYS OF THEIR FIRST DAY AT THE YOUTHFUL OFFENDER SYSTEM; PRIOR TO RECEIVING THIS TRAINING, A STAFF MEMBER SHALL NOT WORK DIRECTLY WITH JUVENILES AND SHALL BE SUPERVISED BY A TRAINED STAFF MEMBER WHEN WORKING WITH ANY YOUNG ADULT OFFENDERS AT THE YOUTHFUL OFFENDER SYSTEM.** The executive director OR DESIGNEE shall make a recommendation to the department of personnel regarding the classification of positions with the youthful offender system, taking into account the level of education and training required for such positions.

- 6) Delete 18-1.3-407 (11) because this data collection language is unnecessary. This information currently is already collected and readily available from other databases.

~~18-1.3-407 (11). Any district attorney in the state shall maintain records regarding juveniles who are sentenced to the youthful offender system and such records shall indicate which juveniles have been filed on as adults or are sentenced to the system and the offenses committed by such juveniles.~~

- 7) Amend 18-1.3-407 (11.5) (a) (I) and (11.5) (c) to clarify court cost payments. In existence since the creation of the Youthful Offender System, Senate Bill 09-241 created the offender identification fund in 24-33.5-415.6, which is funded through a \$2.50 fee paid to the clerk of the court who

AGE OF DELINQUENCY TASK FORCE
FINAL RECOMMENDATION PRESENTED TO THE
COLORADO COMMISSION ON CRIMINAL AND JUVENILE JUSTICE
July 10, 2020

forwards it to a State Treasury fund. Therefore, the payments are part of the court costs in a case and do not come to DOC for collection or disbursement.

18-1.3-407 (11.5) (a) (I). An offender who is sentenced to the youthful offender system shall submit to ~~and pay for~~ collection and a chemical testing of a biological substance sample from the offender to determine the genetic markers thereof.

18-1.3-407 (11.5) ~~(c) Any moneys received from offenders pursuant to paragraph (a) of this subsection (11.5) shall be deposited in the offender identification fund created in section 24-33.5-415.6, C.R.S.~~

H.B. 2019-1149 Mandated Data Compilation

Organization of this document

House Bill 2019-1149 required the Commission on Criminal and Juvenile Justice to compile data regarding “all criminal filings in the state from the last three years...” for young adults ages 18-24, including age, race/ethnicity of the defendant, the judicial district of the filing, charges, disposition and sentence. Statewide information is first presented (Tables 1-9), followed by information for each judicial district (Tables 10-207).

Please see Appendix A at the end of the document for a description of the crime categories.

Description of the data

Cases filed in district and county court in calendar years 2016, 2017, and 2018 in which the defendant was 18 to 24 years old at the time of the offense were extracted from Judicial Branch’s ICON/ELIPSE system. Cases from Denver County court were not available.

Note that this analysis reflects ***cases not individuals***. Individuals may have multiple, concurrent cases, and cases typically have multiple charges. For this analysis the most serious charge was chosen for each case. Additionally, all offenses presented in the analysis of court data include attempts, solicitations, and conspiracies.

Cases generally have multiple initial sentences, usually include fines, and can also include community service and credit for time served. The data below reflect the most serious initial sentence. “No sentence” indicates that no sentence was present for the case at the time the data were extracted.
