2021 IECC Thermal Envelope Certificate - C401.3

(Note: This certificate is in addition to any insulation installer certificates required by C303.1.)

Where there is more than one value for any component of the building envelope, the certificate shall indicate the area-weighted average (AWA) where available. If the AWA is not available, the certificate shall list each value that applies to 10% or more of the total component area.

Post this certificate prior to final inspection and provide the DFPC inspector with an electronic copy.
