Colorado's DSO Rate of Compliance = (See chart below – Colorado's rate is in bold and it is 6.28 violations per 100,000 youth) From

OJJDP's Compliance Monitoring Guidance Manual

DEINSTITUTIONALIZATION OF STATUS OFFENDERS

Rate of Violation per 100,000 juveniles Criteria for Compliance

- 0.0 (or less than 0.1) The State has demonstrated full compliance.
- 0.1 - 5.7 The State has demonstrated full compliance with de minimis exceptions.
- 5.8 - 17.6 The State is eligible for a finding of compliance with de minimis exceptions if it adequately meets two criteria: a) non-compliant incidences violated State law, and b) an acceptable plan has been developed that is designed to eliminate the non-compliant incidents.

- 17.7 - 29.4 The State is eligible for a finding of compliance with de minimis exceptions if it fully satisfies two criteria: a) non-compliant incidences violated State law and b) an acceptable plan has been developed that is designed to eliminate the non-compliant incidents.
- 29.5 and greater The State is presumptively ineligible for a finding of compliance because any rate above this level is considered to represent an excessive and significant level of status offenders and non-offenders held in juvenile detention or correctional facilities.
