

INSTRUCTIONS FOR NEW INFORMATION LEARNED FROM POLYGRAPH PROCESS

- 1) **Polygraph process** for this study means self report after PSI stage, baseline, or maintenance polygraphs.
- 2) **Source** -- Identify where information was **first learned** with codes 0 thru last polygraph number. Data collection staff suggest **gathering and ordering or tagging in file all the polygraph information chronologically as follows:**
 - 0 = Self Report Form
 - 1 = Baseline Poly
 - 2 thru X = The number of additional polygraphs after baseline (2 = 2nd poly, 3 = 3rd poly, etc.)

If new information was first learned in self report, code source = 0

If new information was first learned in fourth polygraph, code source = 4, etc.

- 3) **History** should include anything **up to and including the offender's current offense**.
- 4) Information from file means anything we can define as file, e.g., PSIR and police report. These documents may need to be identified by state.
- 5) Use the form on the lefthand part of the page if either gender, age group or both are known about victims. If age group only is known, record information in the gender unknown columns. If Gender is known, but not age, record information on the bottom row under age group marked "unknown".
- 6) If specific victims are unknown, or if paraphilias or behaviors are not targeted to specific victims, record the information on the right hand side of the sheet.
- 7) **Relation 1** = Relative
Relation 2 = Other position of Trust
Relation 3 = Stranger
Code 0 if it does not apply, Code 1 for yes, Code 9 for don't know.
Each box for relation must be completed next to information known about victims.
- 8) **Repeat victim** -- if victim was counted previously, but you learn about new behaviors. Use the "repeat" column to note the behavior for the age and gender of the victim. Also use repeat victim when victim crosses age groups because of victimization over a period of years. Enter the victim once in the age group where victimization began, then, in repeat column, average categories of continued victimization.

HOW TO ADD INFORMATION LEARNED FROM THE POLYGRAPH

- 1) First answer the questions that ask if new information was learned? About victims? About paraphilias or behaviors? About both?
- 2) **If new victims are discovered:** Record the victim information (gender, age, relation, and number) and the paraphilias which apply **EVEN IF THEY ARE THE SAME PARAPHILIAS AS DISCOVERED IN THE FILE INFORMATION**). We need to be able to match paraphilias to victim types by age and gender.
- 3) **If new paraphilias are discovered** in the poly process on victims we knew about from the file, record the paraphilias on the form and write in zeros (0) in the appropriate age/gender categories. In otherwords, carry down the victims with zeros as placeholders so they are not counted twice, but so that new behaviors can be matched to the victim.

If new frequency (more) under same paraphilias as known in history, treat as new paraphilias, bring down zeros for victims, writing in paraphilia with new frequency.

- 4) **If both new victims and paraphilias are discovered**, record information about both.

RELATIONSHIP DEFINITIONS

RELATIVE = *Mother, father, spouse, stepfather, stepmother, uncle, aunt, grandparent, step relations, live in boyfriend, live in girlfriend*

TRUST = *Other positions of trust: teacher, care giver, minister, boyfriend, girlfriend, date, friend, therapist, police officer, etc.)*

STRANGER = *Stranger, acquaintance*

TYPE OF PARAPHILIA/BEHAVIOR CODES

01 = *Vaginal penetration (of any type)*

02 = *Attempted penetration/any orifice*

03 = *Anal penetration (of any type)*

04 = *Oral sex by victim or offender*

05 = *Urination*

06 = *Fondling, frottage*

07 = *Exhibitionism*

08 = *Voyeurism*

09 = *Ritualistic behavior, bestiality, bondage*

10 = *Excessive aggression, sadism, weapon, spanking*

11 = *Assaultive behavior including domestic violence in association with sexually deviant behavior*

12 = *Murder in association with sexually deviant behavior*

13 = *Stalking*

14 = *Alcohol/drugs to victim w/o consent*

15 = *Offender under influence of alcohol/drugs during act*

16 = *Offender abuses alcohol/drugs during general time periods when offenses occur*

17 = *More than one unwilling participant in incident*

18 = *Pornography - adult/child/sale-distribution/non-porn as porn*

19 = *Use of obscene internet/obscene phone calls*

20 = *Masturbating to deviant fantasy/theft of undergarments*

21 = *Excessive/increased masturbation*

22 = *Specific preparation (e.g., driving around with paraphernalia to use on victims, wearing t-shirts/clothing to attract children, etc.)*

FREQUENCY CODES

01 = *Once a day or more to once a week* (52-360 x times per year or more)

02 = *Less than once a week to once a month* (12 to 51 times per year)

03 = *Less than once a month to six times per year* (6 to 11 times per year)

04 = *1 time per year to 5 times per year* (1 to 6 times per year)

05 = *Less than once a year to once in life* (< 1 time per year to 1 time in life)

11 = *Hardly ever/a little/once in a while*

12 = *Some/sometimes*

13 = *A fair amount/alot/many/often/hundreds*

15 = *Happened over a period of days*

16 = *Happened over a period of weeks*

17 = *Happened over a period of months*

18 = *Happened over a period of years*

19 = *Multiple times during the same offense*

GENDER

1 = *Male*

2 = *Female*

3 = *Both*

SOURCE

11 = *File*

00 = *Self report (post PSI)*

01 = *Baseline*

02+ = *Polygraph #*
