

Initial Bond Set CY 2011 to 2018

Background

Felony and misdemeanor/traffic cases with pre-disposition bond records from 1/1/2011 to 12/31/2018 were extracted from Judicial Branch’s ICON system. Denver County misdemeanor/traffic cases were not available.

Cases can contain many bond records, due to bond reduction/increase events, or new arrests. The following rules were used to analyze a single bond record per case:

1. The first posted bond record was selected. If bond was not posted, the first bond record was selected (excluding “No Bond” records).
2. Bond records contain a “set type” and a “post type”. If the bond set type was blank but the post type was available, the post type was used for bond set type.

Table 1. Initial bond type for felony cases, by judicial district

District		2011	2012	2013	2014	2015	2016	2017	2018
