E-UPDATE FROM CSSRC ~ You are receiving this email as a subscriber of the Colorado School Safety Resource Center's (CSSRC) listserv. E-Updates from the CSSRC will contain the most current information about the Center's activities and resources, as well as other school safety efforts throughout the state of Colorado and relevant national resources. **Please forward this to others on your email list that have an interest in supporting safe and positive schools in Colorado. They may register for this listserv on our website www.Colorado.gov/SchoolSafetyResourceCenter or www.Colorado.gov/CSSRC.**

THE DIRECTOR'S CORNER

September is National Suicide Prevention Awareness Month!

We all know what a tragedy suicide is not only for the family of the victim but also friends, classmates and school staff. Many of our schools are using evidence-based programs to address prevention and intervention.

The Colorado Department of Public Health and Environment's Office of Suicide Prevention (OSP) oversees the [Colorado Suicide Prevention Commission](#) established in 2014. The Commission has set a goal of reducing suicide by 20% by 2024 by securing sustainable funding for the promotion of evidence-based practices and data-driven recommendations that include policy and systems-level change. The priorities and recommendations have included integrated healthcare, training and education, and resilience and community connectedness approaches. To learn more about the Commission's work, please see this [link](#):

For suicide prevention activities around the state in September, I suggest you check the website for the non-profit [Suicide Prevention Coalition of Colorado](#).

Specifically for schools:

- The OSP just received grant funding from SAMHSA to allow the launching of the evidence-based program [Sources of Strength](#) in approximately 50 schools in Colorado over the course of the 5-year grant. For more information about your district's possible eligibility to participate, please call **Sarah Brummett, Office of Suicide Prevention Director**, at 303.692.2369 or email Sarah at sarah.brummett@state.co.us.
- The Colorado School Safety Resource Center has updated the **Resources for Youth Suicide Prevention and Intervention** guide linked [here](#).
- Staff at the Center are also trained in the two-day [Applied Suicide Intervention Skills Training \(ASIST\)](#) program and can bring that to your district for only the cost of the materials @\$40/person.

While our hearts are with the people of Texas, a reminder that September is also **National Preparedness Month**. Please see **Page 6** for more information about how you can help your family, school and community be prepared for the unexpected.

Finally: Please help us, help you! In the wake of the full rollout of the Claire Davis School Safety Act, we anticipate an increase in the number of requests for training, consultation and resources. If you haven't already, we ask you to **please complete this anonymous Needs Assessment** to help direct our work over the next few years. It shouldn't take more than 10 minutes and the information will be invaluable as we move our school safety efforts forward. Thank you!

Kindest regards,

Chris Harms

Clery Act Clarification - Victim Advocates

- The [Clery Act](#) is a consumer protection law that aims to provide transparency around campus crime policy and statistics. In order to comply with Clery Act requirements, colleges and universities must understand what the law entails, where their responsibilities lie, and what they can do to actively foster campus safety.
- Lately there has been some misunderstandings related to the act and mandatory reporting. [Campus Technical Assistance and Resource Project](#) has created a document that helps clarify the different roles related to the act on campus.
