THE DIRECTOR'S CORNER

Dear Colleagues:

2019 Colorado Safe Schools Summit:

- We hope you enjoyed the Summit as much as we did. Thanks to everyone who participated!
- Isaac Baah, our Resource Specialist, has linked all the presentations that we have permission to share on this [page](#). Check back in case we didn't have permission by release time of the E-Update but receive the permission later.

2020 Colorado Safe Schools Summit:

- Please save the dates for next year on Thursday and Friday, October 22nd and 23rd
- We will be back at Adams 12 1500 E 128th Ave, Thornton, CO 80241
- If you have suggestions for plenary speakers, please forward them to me.
Christine.harms@state.co.us

2019 Need Assessment: **There is still time!**

- Thank you to all who participated in the 2019 Needs Assessment!
- Here is a [copy of the report](#) of the aggregated data.
- Five hundred and forty-nine folks answered the survey representing 869 schools.
- The good news is that of those who responded to the question of having an exercised EOP, the answer was a decided 89%.
- Please know, we are seriously looking at the components of school safety with which survey takers said they still would like assistance. We will focus on these topics at our upcoming regional trainings **but feel free to contact the Center with any requests at your site.**
- And now that we have three of our Regional Training Consultants on board, they are available to help our rural colleagues. (See their names and regions below)
- **However, if you didn't get a chance to answer the survey for your school, we have reopened the [link](#) so that you can still complete it. The Governor's office is hoping for an even greater percentage of our schools responding. If you are concerned about anonymity, skip the first two questions, but know that the CSSRC will resist any CORA requests to see the data as it is security sensitive.**

Kindest regards,

Chris Harms
