

## September 2018

**E-UPDATE FROM CSSRC** ~ You are receiving this email as a subscriber of the Colorado School Safety Resource Center's (CSSRC) listserv. E-Updates from the CSSRC will contain the most current information about the Center's activities and resources, as well as other school safety efforts throughout the state of Colorado and relevant national resources. **Please forward this to others on your email list that have an interest in supporting safe and positive schools in Colorado. They may register for this listserv on our website [www.Colorado.gov/SchoolSafetyResourceCenter](http://www.Colorado.gov/SchoolSafetyResourceCenter) or [www.Colorado.gov/CSSRC](http://www.Colorado.gov/CSSRC).**

## THE DIRECTOR'S CORNER

**Greetings:** I hope everyone is off to a successful school year! The Center staff are already busy training and providing resources to schools across the state. We have created some new flyers that let you know the resources we now have available. You can link to them here:

- [CSSRC's general informational flyer](#)
- [CSSRC's Online Courses including the newest - Sexting: What You Need to Know](#)
- [CSSRC's Resource Guide](#)

We also want to recognize that **September is Suicide Prevention Awareness Month**. We hope you will be joining us for the **Youth Suicide Prevention and Intervention Symposium on Friday, September 14th** at the Adams 12 Five Star Conference Center. If you are not already registered, you will need to call the Center (303.239.4435) to go on the waitlist as we are at capacity.

Dustin Hunter, School Outreach Consultant, has created a new online course, Youth Suicide Prevention. This course is designed for all school staff to offer simple, practical strategies for addressing a young person who might be suicidal and underscoring the need to make a warm handoff to a mental health professional. The course is being finalized with the developer and we plan to have it posted later this month. We will announce its availability on the homepage of our website.

*Happy Labor Day Weekend,*

*Chris Harms*

## **COLORADO SCHOOL SAFETY RESOURCE CENTER NEWS**

### School Safety Steps:

As we return to our schools this fall, it is imperative for building crisis /planning teams to assess for vulnerabilities within your school environment. Whether you have a new school, an established school or one where improvements have been made, a site assessment can assist in guiding the crisis planning process.

Site security/safety assessments can be performed by a small group of school staff familiar with the building. However, consider reaching out for assistance from local emergency responders, district staff or even neighboring district staff who may be able to provide that objective viewpoint of a school's vulnerabilities. Site assessments range from the very formal, with checklists and identified outcomes, to the informal consisting of a simple walk through and a discussion of any findings.

The U.S. Department of Homeland Security has recently created a site security assessment guide and survey tool which can be found at: [K-12 School Security: A Guide for Preventing and Protecting against Gun Violence \(2nd ed., 2018\)](#) You can also find more information about site assessments at: <https://www.colorado.gov/pacific/cssrc/vulnerability-assessment>

Remember that Center staff is available to assist with site assessments of your school.
