Training Objectives

- Increase understanding of the traumatic response and the impact on brain development
- Learn ways to support traumatized children at school, both individually and to create a trauma-informed climate
- Learn a timeline of strategies for responding to students' emotional and behavioral crises
- Learn how to build resiliency in children and youth

Who Should Attend

- Teachers
- School administrators
- School social workers
- School psychologists
- School counselors
- School nurses
- Coaches/after school staff
- Other education system employees and community members
