Sliding Scale Voluntary Membership Fees

The minimal fees to become a district member were developed based on a sliding scale, accounting for the total number of students per district. Below represents the contribution amount per district size to become a district member:

Schools with total number of registered students (as of October 1 of each year):	Yearly Membership Contributions:
Less than 100:	\$75
100-299:	\$100
300-499:	\$200
500+:	\$250

For those schools struggling with funding, we recommend looking at creative options for helping fund your membership fee. Here are just a few innovative ideas you could look at to help fund your membership fee:

- Ask a local business partner to sponsor your membership,
- Involve your parent organizations and advisory councils to conduct fundraisers,
- Approach your local rotary club for support,
- Write a grant to a local community foundation to cover your membership fee as part of your overall safety plan,
- Or, add a \$.10, \$.25, or \$.50 per student donation from parents to ensure safe schools.
