

Dear school community,

Your students participated/will participate in a lesson on **Safe2Tell** on _____. Safe2Tell Colorado allows students and adults in Colorado to anonymously report safety concerns. This letter includes a summary of the student presentation as well as additional information for parents/guardians.

Safe2Tell 2018-2019 [statewide data](#):

- 19,861 actionable tips
- 3668 suicide tips, 2164 drug tips, 1871 bullying tips

The presentation emphasized 5 main ideas:

1. Students know safety and mental health concerns about their peers before adults.
2. As part of a healthy community, students have a duty to inform others about safety concerns.
3. As a first step, students should always try to talk to a trusted adult.
4. If that's too hard, or it's after school hours, Safe2Tell is a backup plan.
5. Safe2Tell is anonymous to encourage students to report safety concerns.
