

To ensure the continuity of care between the Department of Corrections (DOC) and community treatment providers, all clients currently in SOTMP treatment and entering the community will have a Discharge Summary Packet completed. The Discharge Summary Packet may include a discharge summary, copy of their Risk Management Plan/Personal Change Contact, current treatment plan, victim clarification letter, testing that was completed within DOC, and Support Education certification of completion. SOTMP encourages all clients to inform their community treatment provider where they completed/participated in SOTMP treatment. Community treatment providers should contact the SOTMP supervisor(s) at the facility the client participated in treatment and provide a signed release of information. Listed below are the facilities that offer SOTMP treatment and contact information.

Arkansas Valley Correctional Facility:

Program Coordinator: Robin Garrelts (719) 267-5059 robin.garrelts@state.co.us
